To: Laura Denk

From: Sarah Ahmed

Subject: Secret Service Request 17, Abstracts on Cuban Activities
Case Number: 127-CO2-0033115 Established: March 18, 1959

I have completed my review of several abstracts regarding Cuban activities provided by the Secret Service. There are twenty-five abstracts in all: only one is a general heading for the Anti-Cuban file. The others are about individuals who were involved in the anti-Castro movement and plots to overthrow Premier Castro. In the abstracts pertaining to Antonio Guillermo Rodriguez and Bernardo Rivero-Morales there is information regarding letters addressed to these individuals which contain an assassination plot against President Kennedy. The letters were purposely misdirected so they could be intercepted and perhaps stir up trouble for anti-Castro elements. The abstracts are significant because each one describes the criminal activities or background of Anti-Castro individuals.
