From: Sarah Ahmed

Subject: Secret Service Request Number 19, Teletypes From White House Situation Room

There are four teletypes all from the White House Situation Room to John Champion, the Secret Service Agent in Charge at San Jose, Costa Rica. All of the teletypes inform Mr. Champion of any suspicious individuals or groups who may cause harm to the President and are on their way to Costa Rica. All documents are dated in March of 1963, which is when President Kennedy was attending a conference in Costa Rica. These documents are significant because of the threats against the President.
