Subject: Postal Inspection Service--Chief Postal Inspector Files

Phil gave me a letter from Chief Postal Inspector Montague to Attorney General Katzenbach dated February 18, 1965 regarding files containing Postal Inspector reports. Information regarding mail cover and mail opening operations may be contained in this file. While the Postal Service did send information to the various agencies investigating the assassination and to the Warren Commission, this particular file was "restricted to the Post Office Department." With your approval, I would like to contact the Postal Service to see if this file can be located and reviewed for information relating to the assassination.
