Frederick, MD

Re: FBI Headquarters Bulky Files

Dear Mr. Weisberg:

Jeremy Gunn is presently out of town, however, he requested that I send you the enclosed material. The packet of information consists of the National Archives and Records Administration's catalogue of the FBI Headquarters Bulky Files from the JFK Assassination investigation. This catalogue contains the information necessary to locate, among other things, FBI exhibits, laboratory reports and pictures.

Please feel free to call me if you have any questions about the material.

Sincerely,

Tammi S. Long
