Dear Dr. Alfano:

I would like to thank you for taking the time out of your schedule to discuss my father's medical condition with me today. The telephone conversation was very informative and reassured me that he is getting solid medical treatment. My father has always expressed the utmost confidence in you and I am sure that your counsel is comforting to him as he deals with this problem.

Again, thank you for speaking with me on the telephone. Your willingness to provide information is much appreciated.

Sincerely,

Thomas E. Samoluk
