*Dear Dr. Kurtz:*

On behalf of the Assassination Records Review Board, I would like to take this opportunity to thank you and the Department of History and Government at Southeastern Louisiana University for providing us with the three volume transcript of the Clay Shaw preliminary hearing, as well as the two volumes containing the trial testimony of Perry Raymond Russo. These records are important additions to the President John F. Kennedy Assassination Records Collection.

Again, the Review Board and staff appreciate all of the cooperation that you have given us. Your efforts should serve as a model of what the United States Congress envisioned when it passed The President John F. Kennedy Assassination Records Collection Act of 1992 to ensure that all records related to the assassination of President Kennedy are available to the American public.

Sincerely,

John R. Tunheim  
Chair
