To Members of the Public:

The President John F. Kennedy Assassination Records Collection Act of 1992 made clear that the Assassination Records Review Board should be open and accessible to the public as it conducts its business. Consistent with this legislative mandate, the Review Board held three public meetings during 1994, all of which were attended by members of the public. This volume includes the record of these three hearings. The Review Board also conducted two public hearings during 1994 and heard testimony from X witnesses. The record of those hearings is available to the public in other volumes.

The Review Board takes very seriously the obligation to allow the American public the opportunity to observe and participate in its work. This openness and accessibility will continue to be a foundation for the Board as we seek to fulfill our mandate under the law.

Sincerely,

John R. Tunheim
Chair
