Dear Cassandra:

Thank you for agreeing to accept resumes from the staff at the Assassination Records Review Board. As you are well aware, the ARRB is scheduled to sunset in September and the staff members here are looking for future employment. I am enclosing copies of the resumes for 14 of our employees.

Not only are the staff members individually very capable people, each of them now possess security clearances through Top Secret and most have Top Secret/SCI. They all have experience working with a multitude of federal agencies.

I have included my resume, I am now the Deputy Director and as you know I have extensive experience with the operation of federal Commissions, including start-up and shut-down. By way of short individual introductions let me offer the following points on the others:

Eileen Sullivan is our Press and Public Affairs Officer.

Ron Haron has recently been promoted to General Counsel after serving as our Associate General Counsel.

Jerrie Olson is our Executive Secretary and provides support to the Executive Director, the General Counsel, and the Board members.

Janice Spells is our Receptionist/Administrative Assistant.

Kevin Tiernan is the Chief Analyst for FBI Records.

Doug Horne is the Chief Analyst for Military Records.
