**Talking Points for Files Briefing**  
**for 12 February 1997**

Per list submitted by Jeremy Gunn and pursuant to discussion on 5 February 1997 between Gunn and [redacted] the following topics are requested for coverage in the "records briefing" scheduled for 12 February 1997. More specifics were identified than covered in the Memorandum for the Record dated 8 January 1997 by Harrelson/[redacted]. It is **NOT** meant that the detail of the question is the detail of the briefing expected, that is, the questions are for the purpose of identifying the types of files that may exist versus the expectation of a complete answer **NOW**.

The topics are not to be considered to be in any order of importance. Primarily the time frame of concern is 1958-63. In some cases, it may mean proving evidence of "no records."

**Gunn further queried whether notes could be taken.**

- Backchannel communications -- how recorded or registered? Were such records searched for inclusion in the JFK collection?

WH

How is WH organized, how are its files organized, how are the files inventoried, where and how filed at HQ of

Project W-SAS (i.e., Cuba)

Are the files separate from WH in the 1961-63 time frame

Searches (How are they done in 1997 for 1963 operations?)

- ✓ Name files
- ✓ Project files
- Personnel Records
- Reports by informants (i.e., June Cobb) -- centralized or separated between two files: one for source information and one for the information provided by the source?
- Are records around a specific hit searched

Issues

Win Scott's files obtained from his office or home in Mexico City. When gathered by Angleton, where placed or how dispersed at HQ? How accounted for, any other searches possible?

U-2 Files. Some reference by Bissell to false manuals for an indeterminate use at an unidentified era. (May be a DST issue.)

Accounting, especially for Angleton -- how handled, how filed, how searchable?

David Atlee Phillips -- personnel file, other files?, how he wrote *Nightwatch*, where he wrote it, was it written with agency and/or Colby support?

How many US penetrations of Soviet and/or Cuban facilities in Mexico City were there in October 63, what type(s) -- electronic surveillance, teltaps, and/or penetrations?

Identify all records facilities/organization thereof
