Date Initiated: 5 December 1959

Date Expires: 1 January 1962

Funds-current year: \$10,000

Purpose: To investigate techniques and brain locations essential to systems utilizing conditioning and which provides optimum directional control of selected species of animals. Specimens of selected species will be prepared for use in related programs. Pertinent biological data will be developed as required.

Status: This is a continuing investigation. Specimens of three species will be made ready for use in related studies. Work has been started to develop experimental biological data request.

Line or
Section

1. Enter on line 1 the amount of cash on hand at the beginning of the period.
2. Enter on line 2 the amount of outstanding advances made to third parties, brought forward from the previous accounting period.
3. Enter in this section the amount of each receipt during the accounting period showing pertinent data, i.e., method or source of acquisition and applicable rate of exchange, if indigenous currency. If more space is required to explain receipts, prepare receipt form, number and attach hereto. In every case, completely identify the source of receipts.
4. Enter on this line the amount to be accounted for which shall be the sum of amounts shown in 1, 2, and 3.
5. Each amount listed in this section shall be supported by a voucher consisting of either the receipt obtained from the payee or in lieu thereof a certification explaining the lack of a receipt. If the number of entries exceeds the available space they may be consolidated as one entry in section 5 and supported by a listing of the individual entries on a separate sheet.
6. Enter on this line the amount of any refunds of advances by the advancee indicating whether by cash, check, or money order.
7. Advances made to third parties which remain outstanding at the end of the accounting period shall be consolidated and the total entered as a single amount on this line supported by a listing on a separate sheet. Final credit will not be given for disbursements which are advances to be accounted for. When accountings for advances are obtained, list as expenses or refunds of cash, as appropriate.
8. Enter on this line the amount of cash on hand, or if the amount of the disbursements exceeds the amount advanced the balance due the advancee shall be shown in parenthesis, i.e. (), and treated as a minus amount in arriving at the "Total Accounted For", line 9.
9. Reflect on this line the "Total Accounted For" which must agree with the amount shown on line 4, "Total To Account For".

MEMORANDUM FOR : The Record
SUBJECT : MKULTRA Subproject 94

1. MKULTRA Subproject 94 was terminated in November 1962. The accounting submitted by the project officer reflected expenditures of \$54,931.45 against an advance of \$55,222.90. The remaining funds held by the project officer were refunded by check made payable to [REDACTED] H

H
2. Analysis of the [REDACTED] bank account reveals that this re-
N fund was not recorded in the [REDACTED] bank account. The custodian
H of the [REDACTED] bank account has agreed to make a refund of this a-
mount or to make this amount available for use by the Agency.

3. As the activity has been closed an amount of \$291.45 should
be cleared from the Memorandum Account (760.0) and the previously
recorded expenditure, 2125-1390-3902 NOR-974.

INTERVIEWED : TDS RECORD

SUBJECT : INKERA Subprojects 70, 91, 94 and 135

Since the completion of the audit of Project INKERA for the period 1 February 1963 through 31 January 1963, accountings have been received from [REDACTED] in the amount of \$93,677.93. This amount is part of \$10,231,117.00 balance to be accounted for by [REDACTED] credits at the end of the audit period.

B { Subproject 70 incurred direct costs of \$2,918.34 and \$27,672.16 transferred from Subproject 94, for a total of \$30,590.50. Subproject 94 incurred a balance of \$71,324.67, less transferred \$4,165.71 to Subproject 91 and \$17,671.16 to Subproject 70, leaving a net cost of \$39,677.60. It was decided to leave the funds for Subproject 135 to Subproject 91, therefore their costs were included in the accounting from Subproject 91.

Regarding 1) all four of the subprojects had the same basic revenue and in mind, 2) the great length of time that has elapsed since the grants were made, and 3) the difficulty in getting accountings of any sort from the project, it is recommended that we facilitate this matter by accounting for the balances as shown in the [REDACTED] G [REDACTED] account for these subprojects.

The above has been concurred in by [REDACTED] members of the Audit staff.

MEMORANDUM FOR: Deputy Chief, Audit Staff

SUBJECT: MKULTRA, Subproject 94 with [REDACTED] 8

1. In response to your inquiry regarding the relationship under Project MKULTRA which existed between TSD and [REDACTED] we are submitting to you the following information from the draft Memorandum for the Record dated 22 November 1961 which provided a grant in aid of research in the amount of \$55,222.90 to [REDACTED]

2. The same principles were adhered to in establishing Subproject 94 as any of the other MKULTRA Subprojects. A memorandum for the record was written in this case recognizing continuation of Subproject 94. The memorandum stipulates that [REDACTED] will function as cutout and cover for the Subproject. The memorandum also provides for a terminal summary accounting and the handling of accountings for travel expenses in a manner consistent with the established practices of [REDACTED] B H. Also, any unused funds remaining at the completion of the project were to be returned to [REDACTED]. The memorandum states H that no permanent equipment was anticipated for this program.

3. A memorandum from [REDACTED] to [REDACTED] dated 14 December 1962 transmitted an accounting for \$54,931.45 and the refund of unused funds in the amount of \$291.45. The accounting for funds and the work performed was in accordance with the memorandum for the record and the general agreement relative to this work. The overall performance by [REDACTED] in regard to Subproject 94 was highly satisfactory in all respects. A copy of the budget proposal, the memorandum for the record and the accountings are on file in TSD and may be viewed by proper officials.

Gentlemen:

Approximately one year ago [REDACTED] received a grant-in-aid from [REDACTED] for \$55,222.90 to support our work on new approaches to pharmacological assay techniques. It was understood this support would relate to project expenses incurred on and after 1 December 1961 and that a financial report would be rendered to [REDACTED] at the end of the grant year. Please find this report enclosed.

B{

Since [REDACTED] has found it necessary to terminate all activity on this project as of 30 November 1962 and since this coincides with the completion of a grant year, we find that in accordance with our agreement, the unexpected balance of funds in the amount of \$291.45 is due and returnable to [REDACTED]. Our check for this amount is enclosed.

Your support in this important area of research has been greatly appreciated. May we express the hope that possibly sometime in the future some other area of research may be determined to be of mutual interest.

Yours very truly,

[REDACTED]

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject No. 94

1. The purpose of this subproject is to provide a continuation of activities in selected species of animals. Miniaturized stimulating electrode implants in specific brain center areas will be utilized.
2. Initial biological work on techniques and brain locations essential to providing conditioning and control of animals has been completed. The feasibility of remote control of activities in several species of animals has been demonstrated. The present investigations are directed toward improvement of techniques and will provide a precise mapping of the useful brain centers in selected species. The ultimate objective of this research is to provide an understanding of the mechanisms involved in the directional control of animals and to provide practical systems suitable for [redacted] application.

as cutout and cover for this subproject. The research and development will be conducted in facilities provided by [REDACTED]

[REDACTED] who will submit to [REDACTED]

[REDACTED] a summary accounting of funds at the conclusion of the program.

Any unused funds remaining at that time will be returned to [REDACTED]

4. The cost of the program for a period of one year beginning 1 December 1961 is estimated to be \$55,222.90. To this sum

must be added \$2,208.92 which represents the 4% service charge

due [REDACTED]. The total cost of the project for a period of one year will, therefore, not exceed \$57,431.82. Charges should be made against allotment number 2125-1390-3902.

5. It is not anticipated that any permanent equipment will be needed for this program. Documentation and accounting for travel expenses which are reimbursable by [REDACTED] will conform to the accepted practices of that organization.

6. The requirement for a semi-annual informal accounting on the part of the principal investigator is waived.

PROPOSAL

It is proposed to conduct investigations as directed by the sponsor of the action of localized neurological and physiological stimulants on the balance mechanisms in mammals and bird. The sponsor will have full control of species of animals to be utilized together with methods and procedures to be followed in the researches.

Special investigations and evaluations will be conducted toward the application of selected elements of these techniques to man.

Pilot experiments will be performed under field conditions to permit the critical evaluation of methods and procedures. The parameters of effectiveness and the action of potential interfering phenomena will be determined.

The following budget is required to carry out the program outlined above for one year.

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject No. 94

1. The purpose of this subproject is to provide for a continuation of investigations on the remote directional control of activities in selected species of animals. Miniaturized stimulating electrode implants in specific brain center areas will be utilized.

2. Initial biological work on techniques and brain locations essential to providing conditioning and control of animals has been completed. The feasibility of remote control of activities in several species of animals has been demonstrated. The present investigations are directed toward improvement of techniques and will provide a precise mapping of the useful brain centers in selected species. The ultimate objective of this research is to provide an understanding of the mechanisms involved in the directional control of animals and to provide practical systems suitable for

MEMORANDUM FOR: THE RECORD

SUBJECT : Project MKULTRA, Subproject 94

1. The purpose of this subproject is to provide for a continuation of investigations on the remote directional control of activities of selected species of animals including mammals and feathered vertebrates. A system of localized stimulation of the brain which has positive and negative motivational effects will be utilized.

2. The initial research phase has been completed by [REDACTED] B

B [REDACTED] They have worked out techniques and brain locations for imparting specific stimulation which activates and maintains directional control of selected mammals. The feasibility of remote control of activities including speed and direction of movement has been demonstrated by limited laboratory and field trials in two species.

B [REDACTED] operating on funds allotted by Letter Order No. 59-26062 having completed the initial research phase have elected to discontinue work in this area. This decision was made on the premise that they have worked out the principle for this Agency and cannot justify further work in an area foreign to their mission. The implications of this technical breakthrough and its potential value to intelligence operations establishes a need for continuation of these investigations, their extension to other species of animals and refinements in instrumentation and stimulation techniques. The ultimate aim
