MINUTES OF REELING #11, WORKING COMMITTEE, 25 OCTOBER.

- 1. Product stated that the financial accountings have been submitted from 1 July to 1 October and will be passed to the Working Committee for signature and approval at the next meeting.
- The briefing of Training personnel, i.e. and tank the brief of them generally on the objectives and tasks of the project and arranged to have the brief the Working Committee on 1 November at the meeting of the Working Committee, on what Training is doing which is relevant to the a list of the members of the Working Committee. In the absence of specific requirements from the committee, he will present what he feels are the activities of Training pertinent to the stressed that Training's liaison with the set., should be discussed in view of our possible use of these channels. He also said that possibly some of OTR's people at the section to the group there.
- the information that the property had been approached by the information that the property had been approached by the formation that the property had been approached by the formation to stay clear of this, but informed our OO representative in that he would be glad to slant anything for us.

 It is witting of our OO contact but his clearance has been disapproved by SO. This information has been passed on to the property of and when he makes a final decision he will advise SO.
 - and arranged to brief enterlines, AD/OSI, in later the office Thursday, 28 October. The was with this meeting and will also attend, with the briefing on 28 October. The purpose of this meeting is to establish liaison with the stated that OSI had the ACTICHOKE responsibility originally, but that the files are now all in SO. The acked if there were any questions to be taken up with the services may be

discussed -- channels used by have lisison with the have lisison with the would explore re-activation of this contact.

- 5. Interviews with the two candidates for Research Assistant at headquarters were discussed by A. A. A. A. CS-12, has an excellent background but because he is a Lutheran minister it was felt that he might reject the job on ethical grounds. A. CS-9, a young chap, FM type, felt that he would like to do recearch. He wants to stay at headquarters for two years before returning to the field. Both candidates were approved by SO. It was felt that a decision would be withheld until additional candidates could be interviewed.
- o. stated that in view of the pre-time ting held Friday, 22 October, by the Working Committee, the two main points to cover in the were command relationships and the research activities to be taken up. He said that he would have a preliminary discussion with the transfer on personnel and finances and any insoluble problems would be taken up at the full meeting.
- 7. The first felt it important that the Committee know the research preposed, the time schedule, etc. The stated that he will ask for a list of activities to be carried out. This list will be considered by headquarters in the light of our needs and then taken up with and and the second considered by headquarters in the light of our needs and then taken up with
- 8. stressed the security hazards of this work and the importance of having the people carrying out the experiments propared for emergencies.
- asked about the role of Lin in this project.

 Wis not touched.

 Wis not touched.

 Wis project should be "clean" in the event of any flaps which might require investigation.

- L. Safehouse Procurement. The owner of the house at has agreed to lease and the contract has been drawn up for her signature today. The rental figure of \$1200 per month is exhorbitant but there is no other alternative. The first and last month's rent are to be paid in advance. The real estate people say the lease has to be honored even in the event that the owner dies. As for an interim place, two suggestions were offered: (1) two adjacent office suites and (2) a penthouse suite, both unsuitable as far as security is concerned.
- 2. Durmy Project Outline. It was agreed by the Committee that the outline drawn up by the can be released to those persons designated in the branches to be contacted, and that the man who is chosen to handle the introductions be given a complete briefing.

 The will prepare the memo to which will be accompanied by memos for OSI, TSS, and O/Tr.
- 3. It was agreed that the memo to should be hand-carried and that the Administrative Plan should be taken along at the same time.
- be used in obtaining applicants for the Followships. He stated that these people can be interviewed as the followships. He stated that these people can be interviewed as the office and that they could see 4 or 5 a week from the the necessary background for academic appointment, and be suitable for the properations. The properations will be used unwittingly. It was the opinion of the Committee that students could be approached by means of a form letter sent out by the In regard to security clearance for these students that two months would be an approximate time limit, but that he could always try to push a few names through sooner. He suggested that what names we have now be given to him as soon as possible.
- 5. Dispatch from Field. The was to check the whereabouts of the phispatch in question; it was agreed to send a cable to the field requesting the dispatch number.

- 2. Was recommended highly for this position. We is available and has Security's approval. The next candidate would be will pass the folder on to Management.
- The memos drafted to O/Tr, OSI and TSS were read to the Committee.

 The suggested one of the Committee members draft a brief, limited description on a high theoretical level and let that be the basis for a briefing sheet. Further, that someone like the beginning people to the contact the above branches by phone and introduce whoever will make the personal contact. The personal contact should be made by a Committee member who knows the designated man in these branches. The question of whether such a mome would be sufficient to cover acquisition of certain drugs, etc. was discussed.

 The drugs needed through OSI which is a unwitting. It was agreed that the drugs needed through OSI which is a unwitting. It was agreed that the drugs needed through outline, listing objectives, have it approved by Security and pass it around to the Committee members. It would then be sent to the with the three memors already written and addressed to O/Tr, OSI and TSS.

Clearances. There have been no additional clearances; however stated they should be completed this week. has two more names to submit through S. Reference to the acquisition of a conference table set off a discussion on future purchases. Said there will be a complete dinventory and that will represent the in the matter of property, the SO man will represent the real estate broker and will represent the Agency. Arrangements will be made that anything bought covertly will revert to Agency at liquidation time. Suggested making it SOP (1) to see what we can "scrounge" before the group B makes a purchase, (2) to make sure the Administration people are aware of our situation, and (3) to be aware of the security aspect. Suggested we buy second-hand and sell second-hand in order to curtail expenditures for equipment. It is stated that an expensive machine could be amertized for so many years and charged off each year as part of running costs. It was agreed by all that an Administrative man is needed to sit in on the committee meetings or to be available to the Case Officer.

Moreover to let the security about the project appoint someone to sit in with the Working Committee when required. Suggested a memo be sent to outlining the problem and giving him a list of what type of material the Admin man will be dealing with.

said about 10 days ago he was informed that a cable had arrived, marked and addressed to the Director of Security.

In a fice has tried every means of tracking it down.

In regard to the problems in the Field M. Said it would have been better to have assigned to the project and receipt of the requirement will place upon that project. He said clearances were in process for he bedies.

In regard to the project and receipt of the requirement is covered in the Outline of Activities written by and the people.

In the outline of Activities written by the and the people.

In the opposite that the regirement is covered in the Outline of Activities written by the and the people.

MEMORANDUM FOR THE FILES

Subject: Meeting of Working Committee of

Participants:

l. It was agreed to discuss the Outline of Activities prepared by and and at the next meeting; copies were logged out and given to

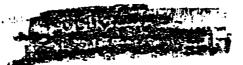

2. Safehouse Procurement. The house on the was dropped for security reasons. The real estate man was concerned with Security's expediting the check before he makes any more definite moves. That had advised that we check on the house on the house of the plans. The only other suitable house found was at the security Check will be stabted as soon as the owner is ascertained. In the meantime has inserted an ad in the Alternatives were discussed. Security will not permit use of space in occupied office buildings; we cannot expect cooperation from the who reportedly has safehouses in that area; The saked about club/boarding houses. The saked if it was possible to work outside of Logistics, and it was stated that if anyone found something they could then turn it over to Logistics.

3. Replacement for reported that reported that the same editorial experience but was not a research man. There are about 6 more names available and these will be turned over to Security immediately for their approval.

4. The memos outstanding are to be prepared by and and and on Tuesday at 9:30 a.m., in room

5. In regard to the contact with the Office of Training, it was decided that besides who has charge of case histories would be cut in.

A personal contact will be made.

6. Four names have been cleared of the list to personnel B/3 submitted: an area would come through this week.

7. Regarding provisional operational clearances, it was decided that in specific cases would write a request on an individual basis. In the case of the men who work in the department whose names have already been submitted, because they are not working with material directly relating to it was deemed advisable to let make use of them until their full clearances come through.

8. The Working Committee was unanimous in its decision that relationship with the project, was strictly on a professional and personal basis, and under no circumstances was this to be related to the project. The group went on record to state that insofar as the project was concerned no reports on the Subject per se were desired or to be submitted. It was pointed out that this involved an aspect of private practice which was distinct and separate from any association with

9. In regard to changing the name of the Project, suggested that this be done after the move to

contact in the Field regarding the Field Demonstrations. He reported that a dispatch had come in on Friday. The gist of his report was that no "go-ahead" has been given pending a decision from Headquarters as to which place has the authority.
