(TS//SI//NF) On 12 March, the President directed DoJ to continue working on the legal issues, and on 15 March OLC issued a three page memorandum to the Deputy Attorney General stating that, while it had only begun to analyze the issues and was not yet prepared to issue a final opinion, it believed that (D)(1), (D)(3) types of collection authorized under the PSP were legally supportable. OLC had not yet developed a supportable argument to justify

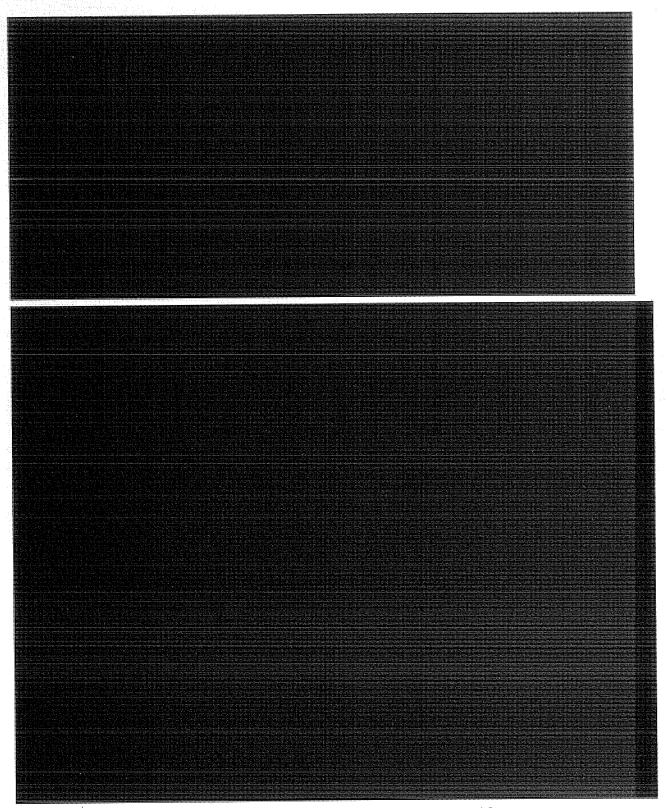

²⁵(TS//SI//NF) The Assistant Attorney General for OLC issued a memorandum on 6 May 2004 concluding that operating of the PSF as described in the onlinear was lawful. A 16 July memorandum upheld the 6 May opinion.

(U//FOUO) The OIG issued a report for each of the 13 investigations and reviews described above. Ten reports on PSP activity resulted in 11 recommendations to management; 10 have been closed, and one remains open. Three reports on FISC-approved activity previously authorized by the PSP contained nine recommendations to management; three have been closed and six remain open.

<u>(TS//STLW//SI//OC/NF)</u>-Beginning in January 2007, violations that had occurred under the Authorization and violations related to PSP activity transitioned to court orders were reported quarterly to the President's Intelligence Oversight Board (through the Assistant to the Secretary of Defense for Intelligence Oversight).

were purged from NSA databases in 2004; therefore, it was not possible to determine the exact nature and extent of that collection. The NSA OIG will close out this incident in an upcoming report to the President's Intelligence Oversight Board.

(TS//SI//NF) On 15 January 2009, the Department of Justice reported to the FISC that NSA had been using an "alert list" to compare incoming business records FISA metadata against telephone numbers associated with counterterrorism targets tasked by NSA for SIGINT collection. NSA had reported to the Court that the alert list consisted of numbers for which NSA had determined that a reasonable articulable suspicion existed that the numbers were related to a terrorist organization associated

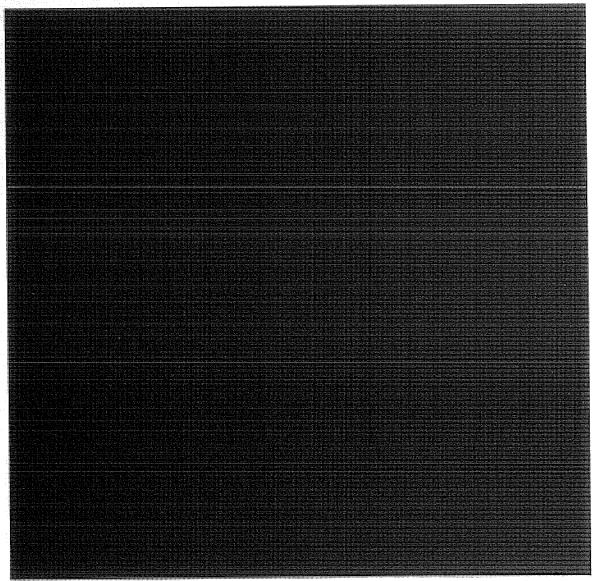

However, the majority of selectors on the alert list had not been subjected to a reasonable articulable suspicion determination. The NSA OIG has reported this incident to the President's Intelligence Oversight Board and has filed updates as required. The alert list and a detailed NSA 60-day review of processes related to the Business Records FISC order were the subject of several recent submissions to the FISC and of NSA briefings to Congressional oversight committees.
