SUBJECT: Request for Digital Image of MD Licensee

Dear

As part of a criminal investigation being conducted by this agency, I am requesting the digitized image for the following MD licensee: Bruce E. Ivins, OLN I-152-098-188-31; DOB 4/22/1946.

If available, please provide us with this person's digitized photograph and any related identifying information on file.

Please fax your response to my attention at [Redacted]. If you feel that a facsimile may not be readable, please also provide me the above requested information by U.S. Mail. My mailing address is USPIS [Redacted]. Thank you for your assistance in this matter.

Sincerely,

U.S. Postal Inspector

Date dictated 04/27/2005

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.
As part of [ ] duties at USAMRIID, [ ] received training in [ ] knowledge, [ ] has never come into contact with any person anywhere who was actually exposed to anything that could be construed to be capable of infecting mass casualties on any part of the world population.

Questions for USAMRIID Interviews

[ ] was asked all of the questions titled "Questions for USAMRIID Interviews" even though [ ] advised [ ] never worked with any biological organisms. A copy of said questions is stored in the 1-A section of case file for this report of interview, as notations were made by the interviewing Agent on same. Specific responses for numbered questions are as follows:

1. [ ]

2-4. [ ] responded "No" to each.

5-9. [ ] is not familiar with the names Bruce Ivins or [ ] never was associated with anyone who was versed in the weaponization of any agents. [ ] also was never aware of any contamination in [ ] and was not familiar with the term [ ]

10 and 11. [ ] was provided with a copy of building blueprints and marked the area where [ ] worked. This copy is maintained in a 1-A envelope. [ ] did not work in [ ] and was not familiar with same.

12-16. [ ] never handled "select agents," nor did [ ] work with anyone who did. [ ] did not have routine access to any
"hot" areas and does not recall ever being in any of same, let alone allowing anyone entry to same on credentials. does not recall anyone having access to any agents who also had the ability to create same or handle same, nor is aware of anyone who considers a suspect in the anthrax mailings.

17-18. has not worked with anyone whom considers lax with handling any agents or whom considers to be interested in turning any agents into harmful agents. knows of no one who expressed an interest in gaining access to anthrax or any other dangerous agents.

19-20. "wouldn't know where to start" to go about preparing dried Ba or to send it through the mail nor is aware of any one who expressed any interest in being able to "get around" forensic techniques.

21-22. is from and has no personal or professional association with Trenton, NJ or Princeton, NJ, nor is aware of any one who does. was working in Frederick, Maryland (MD) during and does not recall specifically making any trips to NJ during that time period, nor is aware of any of associates who did.

23. is aware of SOPs for decontamination but does not nor did have access to Class II and Class III biosafety cabinets in work areas and does not know exactly what constitutes same.

24. has never worked in virology areas and is not familiar with the terms "paraformaldehyde or glutaraldehyde fumigation."

25-26. has never smelled bacterial decontamination agents nor has ever used plastic storage containers such as sterilite boxes in work areas.

27-28 has never worked in any labs and is therefore not aware of any lab work official or otherwise, nor whether or not such work was recorded in notebooks.

29-30. has never purchased any pre-stamped envelopes nor used any from any source.
31-32. [____] never handled any of the anthrax-laced letters or envelopes, nor has [____] performed any analytical work on any of the evidence in this case, nor does [____] personally know of any one who has.

Questions regarding [____] has heard the name from [____] but has never been personally introduced to [____] has never been provided training from [____] has no recollection of ever seeing [____] at USAMRIID and questioned whether [____] was at USAMRIID during the same time period when [____] was. [____] was asked all of the questions concerning [____] and answered "no" to each, insisting that [____] would not know if [____] walked into the same room. [____] has no information regarding any of [____] associates, including [____] and knows of nothing concerning [____] after [____] left USAMRIID. [____] knows of nothing not previously covered in above interview questions and can think of nothing [____] knows that would be helpful relating to the anthrax mailings.

[____] never hosted any foreign visiting scientists and does not know anyone who did.

[____] was an [____] ever associating with any [____] is not aware of any one who spoke with [____] and never talked to any one who was present when [____] spoke to [____] members. [____] has no knowledge of political issues regarding the [____] or [____] response to same. [____] has never conversed nor known of others who have regarding decontamination procedures to avoid leaving traces of pathogens, nor is [____] aware of [____] or any one else ever discussing forensic countermeasures whereby a would be bioterrorist could avoid being identified or detected.

[____] is not aware of [____] ever showing simulants for anthrax to the [____] is not aware of [____] ever discussing with [____] the use of a lyophilizer to make powdered anthrax. [____] is not aware of [____] ever discussing materials such as a home-made glovebox made from a plastic container, various bottles and kitchen supplies, or discuss scenarios in which such items could be used to prepare a bioweapon.

[____] has no other information about [____] interactions with the [____] which might relate to this case, nor has
ever heard of a scenario discussed whereby plague was to be dispersed in the White House. [ ] knows nothing of [ ] working on such a scenario or [ ]
The following investigation was conducted by Special Agent __________ between 04/27/2005 and 04/28/2005:

A review of BRUCE IVINS' United States Army Medical Research Institute of Infectious Disease user drive revealed several emails between IVINS and __________. These emails referenced Kappa Kappa Gamma __________.

A www.atxp.com search revealed that Social Security Account Number __________, date of birth __________, currently resides at __________, lived at __________, which, per www.atxp.com, is the sorority house for Kappa Kappa Gamma __________.

A copy of the www.atxp.com National Comprehensive Report is attached to and made part of this document.
Date of transcription 04/21/2005

work telephone number After being advised of the identity of the interviewing agent and the nature of the interview, I provided the following information:

worked on two projects while working at USAMRIID. The primary project involved work on

worked on a project to develop a

at USAMRIID. work on the projects primarily dealt with DNA.

In approximately left USAMRIID and went to work for

while waiting to work

for the as an analyst. While awaiting security clearance,

. After obtaining security clearance,
In June or July 2001, ________ returned to ________, where ________ is currently employed as ________. While employed at USAMRIID, ________ did not have access or work with Bacillus anthracis (Ba). ________ had access to Ebola, Marburg and VEEV but did not work with the live agents except for work related to ________. ________ did not have access to the Ba lab and any anthrax work was performed by other individuals. BRUCE IVINS worked in the anthrax area. ________ had not ever used the modified G sporulation media. ________ had not used any culture technique. ________ was one of the last bio warfare guys that had an expertise in weaponization techniques. ________ had no knowledge of any areas of USAMRIID which had problems with bacterial contamination, particularly virology suites. Besides the ________ Building, ________ worked in ________ suite and ________ suite in building ________. ________ could not remember what the specific room numbers for ________ and ________ suites were. ________ suite was were Ebola work was performed and ________ suite was were VEEV work was performed. ________ had not used the hot areas of building ________. ________ could not remember if ________ had used the room ________ the walk-in cooler, in building ________. ________ had no knowledge of who used or what was stored in room ________. ________ had never seen or heard of people "piggy-backing" in and out of the hot areas at USAMRIID or visiting scientists being taken into the hot areas by USAMRIID researchers. ________ had no knowledge of anyone removing Select Agents from the hot areas covertly but believed that it would be easy because anyone that had the appropriate access badge and pin code could walk into a hot area and conceivably take anything. ________ was not aware of anyone who said they might make a Select Agent for use in some improper fashion. ________ was not
aware of any persons with the access and ability to create or handle dangerous biological agents who had expressed hostile attitudes toward any political organization, the media, or others. There were no persons that believed or suspected of possibly being associated with the mailing of the anthrax letters. There were no people that worked with who were lackadaisical in handling dangerous items or inappropriately interested in agents that could be turned into harmful agents. was not aware of anyone at USAMRIID that was rumored to be interested in gaining access to anthrax or any other biological or chemical agents or the means to produce them without a specific means to do so. was not aware of any work being conducted with Ba or its simulants which was unofficial or not recorded. was not aware of anyone who expressed a special interest in being able to get around forensic techniques.

The dried BA would have to be ground up prior to being placed in the mail. The problem with grinding up the dried BA is that chemicals have to be added in order to keep the dried BA from sticking together and in order to get the dried BA into powder form. did not know what chemicals had to be used. had knowledge of the process to dry out and process the BA from his work as a. Someone with knowledge might have the knowledge of what chemicals had to be used when the dried BA was ground up. did not believe that there were many people with the knowledge of the exact chemicals to be used.

nor any of associates had any personal or professional association with Trenton, New Jersey, Princeton, or other areas of New Jersey. nor any of associates traveled to New Jersey in September or October 2001. had relocated to time frame and was.

There were Standard Operating Procedures for decontamination of Class II and Class III biosafety cabinets in work areas but could not remember any of the specifics. Paraformaldehyde and glutaraldehyde fumigation were not employed in the building in which worked but they were used in Building on a regular basis. had never smelled bacterial decontamination agents in the because was
Everybody used the plastic storage containers, such as sterilite boxes, for storage of their materials at USAMRIID. The storage containers were everywhere. I was not sure how, when, where, or by whom the containers were purchased. Since the containers were everywhere, I had never noticed any of the storage boxes missing because it would have been hard to determine. All of work was recorded in lab notebooks. I was not sure where they would be stored but at the building would probably know where the notebooks were stored.

I had never purchased pre-stamped envelopes like the ones used in the mailing for own use or for anyone else. I had never used any of the vending machines in Frederick, Maryland to purchase pre-stamped envelopes.

I had not personally handled any of the anthrax laced letters or envelopes. I had not performed any analytical work of the evidence in the case.

I never hosted any foreign visiting scientists and was not an member.

I knew who was prior to the had seen in the auditorium area in the Administration area, in the office that I shared and at the Building. In June or July 2000, I saw in the auditorium area of the Administration area of USAMRIID during a science related meeting. was employed by and no longer working for USAMRIID. I was not sure if had an escort, what type of badge had, and where else might have gone in USAMRIID.

I never let "piggy-back" into any areas with taking any equipment out of USAMRIID or moving equipment to a place where could use it unobserved. I never saw working with bacterial cultures or lyophilizers. I had no knowledge of removing or borrowing any equipment from USAMRIID or trying to obtain discarded lab equipment. I never asked for any isolates, equipment, or access to any USAMRIID locations. I did not know where stored samples or materials nor was aware of any samples might have brought with from prior research or employment.
Continuation of FD-302 of ________________. On 04/20/2005 Page 5

I never discussed experiences with or never talked about discussions with or never made any references to killing people. I did not recall complaining about any political issues, particularly involving senators or media personnel. I did not have any conversations with in which mentioned scenarios involving bioweapons and how to create them. never mentioned the idea of mailing anthrax. never heard mention ways to avoid forensic detection in bioweapons cases.

I had no idea if had any connections to New Jersey or Princeton. never recommended any books to . did not know if ever visited.

shared an office with and hung out with might have wanted to mentor to be the next bioweapons expert. could not identify any of

I knew that went to work for leaving USAMRIID. was trying to but the rumors were that was never going to get

never saw near the walk-in cooler, room in the hot side of building 1412.

was not sure what worked on at USAMRIID but remembered a presentation given by which was going to go could not remember any controversial issues being discussed. did not know if ever showed any interest in anthrax.

Since the concerning has not heard any comments about or about having given access to certain areas or to Ba. had nothing additional to add regarding the anthrax letter mailings. never worked with on any projects or experiments.

remembered as being reasonable clean and neat but it was a working lab with a lot of things going on. had no knowledge of any growths or colonies that appeared to be possible bacterial contamination of viral cultures.
Continuation of FD-302 of

On 04/20/2005 . Page 6

could not recall seeing a lyophilizer in or outside in the hallway. remembered the following types of equipment in safety hoods, animal housing facilities, pipertor, and plate reader. did not remember seeing any unusual pieces of equipment in the suite and did not know if there were any plates or containers that might have been growing bacteria.

could not specifically remember being in a hot suite with but after a review of the access logs agreed that was probably in with for the times and dates shown. was in as a guest and was probably checking on the status of the mice involved in project. was not sure which area of the lab was had no knowledge of whether kept area of the lab clean and free of trash, cleaned area with Microchem, ate or drank in the lab, or what condition left equipment with which worked. did not know if acted carelessly in the lab with regard to safety, risked exposure to pathogens unnecessarily, acted risky in the lab, or seemed concerned with obtaining vaccinations that needed or was required to have.

did not recall what equipment worked with in the lab. had no knowledge of having any lab equipment brought into or any other suite for use. had no knowledge of or anyone else removing any lab equipment from a hot suite. never saw in a shower area.

did not recall seeing or hearing about being in any bacteriology suites. did not see anyone working on anything in an area or suite where such work was not routinely conducted. was not aware of any unusual decontaminations being performed. was not aware of any animals dying of an unknown cause.

never saw looking through bags left by the autoclave. believed that a lab technician by the name of was responsible for autoclaving things related to .

There were probably places where someone could have grown Ba without anyone knowing because there were multiple incubators which multiple people used for different projects. One individual would not necessarily have known what another individual was working on at a particular time.
I did not know if there were ever any bacterial cultures or bacterial work conducted in the Clin Lab.
assigned to the United States Army, 902nd Military Intelligence Group, Fort Meade, Maryland, telephone number was interviewed telephonically. After being advised of the identity of the interviewer and the purpose of the interview, provided the following information:

by Postal Inspector

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.
The following investigation was conducted by Special Agent (SA) of the Federal Bureau of Investigation on May 05, 2005:

As previously reported, Social Security Account Number (SSAN): Date of Birth (DOB):

United States Army Medical Research Institute of Infectious Disease (USAMRIID) was the registered owner of a

On May 05, 2005 at approximately 8:50 AM, a canvass of the employee parking lots at USAMRIID for a met with positive results. Six were identified, however, information indicated none of the vehicles identified were registered to

Investigation determined the were registered to the following individuals:

1. TAG: negative, comes back registered to DOB:
2. TAG: negative, comes back registered to Bruce Edward Ivins, white, male, DOB: April 22, 1946.
3. TAG: negative, comes back registered to DOB:
4. TAG: negative, comes back registered to and DOB:
5. TAG: negative, comes back registered to DOB:
6. TAG: negative, comes back registered to

(Attached to each copy of this communication are photocopies of the above mentioned NCIC records.)
The following investigative steps were conducted by Postal Inspector on approximately April 5, 2005, or otherwise indicated by the dates below:

The Warren County, Ohio Genealogical Society was contacted with regard to ordering obituaries from their records. On April 5, 2005, seven obituaries were ordered using an order form and USPS money order sent through the U.S. Mail, for the following names: C. WILBUR IVINS (died 1938), MARY RANDALL IVINS (died 1954), MABEL ANN IVINS (died 1970), RANDALL IVINS (died 1985), T. RANDALL IVIN (died 1985), GLADYS HAZEL (GUM)IVINS (died 1996), and CLAYTON BLAKE IVINS (died 1998).

Copies of the abovementioned obituaries were received via the U.S. Mail on April 13, 2005. One obituary mentioned BRUCE IVINS; T. RANDALL IVINS died in 1985 and was survived by son Bruce of Frederick, Maryland. Obituary of C. WILBUR IVINS indicated that he was survived by son and widow MARY IVINS. Obituary of MARY IVINS indicated that she was survived by son.

Attached hereto and considered part of this document are the original order form, a copy of the USPS money order receipt, and the receipt form, obituaries and a copy of the envelope received on April 13, 2005.
Warren County Ohio Genealogical Society
Mail Order Photocopy Request

The Warren County Genealogical Society has an on line index to 40,000 obituaries plus on line name indexes for many of the Genealogical Society publications at http://www.co.warren.oh.us/genealogy/

These publications are available for review at our resource library. If you cannot visit in person, copies of the individual pages are available by mail for $1.00 per page with a $5.00 minimum.

Obituary Request. (Must include all of the information as listed in the on line index)

C. W. Ivins

C. Wilbur Ivins, a well-known Lebanon druggist, died suddenly Wednesday afternoon in Sarasota, Florida where he was spending the winter. Funeral services will be held at Sarasota on Saturday afternoon but the body will not be brought to Lebanon until later. Mr. Ivins had been in the retail drug business at Lebanon for forty years and since 1919 Clarence Jameson had been associated with him in the business. Surviving are the widow, Mrs. Mary Ivins; one son, T. Randall Ivins, Lebanon; and three brothers, Howard W. Ivins, Lebanon attorney, Dr. L.T. Ivins, retired dentist, of Cincinnati, and Lee Ivins, of Fort Wayne Indiana.

27 Jan. 1938 Franklin Chronicle

Mrs. Anna Leight

Mrs. Leight, the late wife of Fred Leight, of Red Lion, died Tuesday evening at six o'clock at the Middletown Hospital where she had been taken earlier in the day. Her death followed an extended illness at the home of her son, Frank Leight, in Red Lion. In addition to her husband and son she is survived by one daughter, Mrs. Ruth Worman of Franklin, and three grandchildren, Doris Ann, James and Frederick. Funeral services will be conducted on Friday afternoon at two o'clock at the Unglesby Funeral Home in Franklin. Burial will be in Milton, Ohio.

27 Jan. 1938 (Franklin Chronicle)
Hurwich, Saul
10 June 1954

ILLNESS IS FATAL TO SAUL HURWICH

Associated With Fashion Shoppe Many Years;
Rites Tuesday

Following an illness of several months, Saul Hurwich, aged 60, died Sunday at Jewish Hospital in Cincinnati where he had been a patient for several weeks. He had been associated with his wife Ruby in The Fashion Shoppe here for more than 35 years. A graduate of University of Pittsburgh, he was an attorney and practiced law for a time in Pittsburgh. He was a member of Lebanon Lodge of Masons, Scottish Rite, and Shrine in Cincinnati and was past exalted ruler of the Lebanon Lodge of Elks.

Funeral services were held at 2 p.m. Tuesday at Well Funeral Home in Cincinnati with burial in Walnut Hills Jewish Cemetery.

Besides his wife, he leaves one brother and four sisters.

Hutchinson, Otto
10 June 1954

Otto Hutchinson Succumbs At 78

Funeral services for Otto Hutchinson, aged 78, of Clarksville, Route 1, retired farmer who died at Milford Rest Home Sunday were held at 10:30 a.m. Wednesday at Vale Funeral Home in Morrow with burial in Mainville Cemetery.

Surviving are his wife, Trese; two sons, Arthur, of Clarksville, Route 1; John, of Blanchester Route 2; six grandchildren and one great grandchild.

Hutchinson, Russell
11 Feb 1954

Brother Of Local Resident Called

Russell A. Hutchinson of Toledo, brother of Mrs. Ralph Lewis, was in a serious condition on his way to Phoenix, Arizona. Mr. Lewis accompanied his brother-in-law but Mr. Hutchinson couldn’t continue his fight for life and in New Mexico passed away on Saturday, February 6, at 10 a.m. Mr. Lewis is accompanying the body home, arriving Wednesday. Full funeral arrangements have been made.

Hutslar, Esther
27 May 1954

LOUISIANA WOMAN IS COUNTY’S SIXTH TRAFFIC VICTIM

Killed Beneath Own Car In Mason Wednesday Night

A fatal collision, the car hooked the back of the vehicle while parked under the car in the village of Mason.

Police Chief Elmer Wright, who investigated, reported Mrs. Esther Hutslar was en route to Springfield to visit a nephew. She became tired of driving and asked her companion, Mrs. Gertrude Haase, 52, New Orleans to relieve her. They stopped near the Gallimore Funeral Home. By mistake, Mrs. Hutslar left the car in automatic drive. As she walked in front of the machine her companion stepped on the foot accelerator, Warren county’s sixth traffic fatality this year. Hutslar was hit and ran over her.

In her excitement, Mrs. Haase put the car in reverse and the car passed over her again. Rushed to Mercy Hospital in Hamilton, she was reported dead on arrival.

The body was removed to Littleton Funeral Home in Springfield.

Mrs. Mary R. Ivins
26 Aug 1954

Services Monday

Mrs. Mary Randall Ivins, aged 82, died Friday night at Champion Rest Home here after an extended illness. She was a life-long resident of Lebanon and the widow of C. Wilbur Ivins, widely known Lebanon druggist.

Funeral services were held Monday at the convenience of the family at Oswald Funeral Home with burial in Lebanon Cemetery.

Surviving are her husband, T. Randall Ivins and three grandsons. 
Mrs. Mabel Ann Ivins, 84, died Aug. 12 at her residence, Lebanon, Route one.

She is survived by six daughters, Mrs. Grace Bannest and Mrs. Dorothy Sieler, both of Lockland; Mrs. Catherine Jones, Mrs. Esther Carey and Mrs. Martha Jean Dunn, all three of Lebanon, and Mrs. Helen Hauck of Sardinia. Also surviving are four sons, Charles, Leroy and Clayton, all of Lebanon, and Edward of Lockland. Other survivors include 31 grandchildren and 22 great grandchildren.

Funeral services were held Saturday at the Oswald Funeral Home with burial in Bethany Cemetery.

Mrs. Stella Jameson, 93, of 111 Mound St. Lebanon, died on Jan. 12 at Miami Valley Hospital in Dayton. She was a lifetime member of the Lebanon Presbyterian Church.

Funeral services will be conducted at 2 p.m. today (Wednesday) at the Oswald Funeral Home with burial in the Lebanon Cemetery.

Mrs. Jameson is survived by two daughters, Mrs. Clark Weamer and Mrs. Cecil Giest both of Lebanon, one granddaughter, and three great grandchildren.

Harold B. Janney

Funeral services and burial for Harold Braden Janney, former Warren County resident, were held May 7 at Dayton. Age 70, he died there May 5. Surviving are the wife, Mary Sophia Heagyman Janney; a daughter, Mrs. Barbara K. Runyan, Beach, Calif.; four sons, John W. Johnston, Cincinnati; Herschel, of Ft. Worth, Texas; one brother, Wesley of College Park, Ga., and five grandchildren. A son James died two years ago.
