Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 17 September, the details of which were passed to us by RAF Northolt. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for the 17 September from Northolt. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

Thank you for your enquiry concerning the sighting of an "unidentified flying object" over Bonnybridge on 17 August 2003 at approximately 23:45. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your query, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 17 August from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Finally, I can confirm that no military aircraft were operating below 2000 feet in the area at that time. It is, of course, possible that a civilian aircraft was in the region. If you wish to pursue your investigations on this basis, you should contact: The Civil Aviation Authority, CAA House, 45-59 Kingsway, London, WC2B 6TE.

Yours sincerely,

CALLER

West Yorkshire Police Section 40 Duty Officer

on 4 Sep at approx 23:40

A member of the public had reported seeing unusual aerial activity in the Queensbury Moor area; an object was spotted towards Todmorden between approx 23:12 – 23:40, comprising of six lights that split, at one point becoming eight lights orange and red in colour. They were definitely not street lights and did not appear to be moving. An officer went out but could not see anything.

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 14 August 2003, which was passed to us by the Community Relations Officer for the RAF in Wales. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 14 August from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time & Duration of Sighting	11.00pm 5-10min
B. Desciption of Object (No of objects, size, shape, colour, brightness)	Orange circular
C. Exact Position of Observer Location, indoor/outdoor, stationary/moving	Out on the patt.
D. How Observed (Naked eye, binoculars, other optical device, still or movie)	Naked Eye
E. Direction in which Object first seen (A landmark may be more useful than a badly estimated bearing)	N/K
F. Angle of Sight (Estimated heights are unreliable)	Not very high
G Distance (By reference to a known landmark)	Miles Away
H. Movements (Changes in E, F & G may be of more use than estimates of course and speed)	stationary
I. Met Conditions during Observations (Moving clouds, haze, mist etc)	Clear Still Evening
J. Nearby Objects (Telephone lines, high Voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Up in the Sky

K.	To whom reported (Police, military, press etc)	Reported to Gwent Police who reported to ATC Cardiff Airport and us.
L.	Name & Address of Informant	Section 40
M.	Background of Informant that may be volunteered	Newport Gwent Section 40 the previous evening saw the same thing.
N.	Other Witnesses	nearest neighbours
O.	Date, Time of Receipt	14/8/03
P.	Any Unusual Meteorological Conditions	
Q.	Remarks	Section 40 thought it was a sighting of Mars as it has been reported in the media but not visible until the 27 Aug 03. Maybe an early visual sighting

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 17 January 2000. The report was passed to us by RAF Menwith Hill as this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 17 January 2000 from Yorkshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Sun. 10th Aug 03

Ministry of Defence.

This maybe "wasted Space" to you. But there seems to be a 'Highway' Here above ones Head of Star Like Travelly Spheres, Started on Friday 8th Aug 03 10.35 PM. as I Brought in washing. I was Startled By cows Bellowing. As it Strange to Hear cows Especially at night. I stood a moment Listening. Looked up at the lovely Starry Sky. I Saw the Star more, definately controlled Going South to North. Called my Son, so we watched it. Suddenly it Stoped dead Then Dropped Like a Bomb in a Straight Line-

South. Stoped again for very Bright, One felt a Bit anxious as we thought it was going to change direction towards us. But it Zoomed off diagonly at a terrific Speed. We were so excited at what we saw, So one Took another Look 11.15 PM. Sure enough another Seen, But this Time from west to North East. It Passed in front of, 'Some Say' a Space Lab. Bright Star anyway. It Appeared to so Bolted a Star, we, Last Night as Horizon was Light. So it not Lost to us.

Sunday night, clear sky, Put my car in Garage, Stood to Look 'Up' I could See three Round Star Spheres. I was astonished to See Same 10.35 PM. Going South to North East. So I went out as Near as time as Friday night. Sure enough 11.15 PM another Going Slide South-North East. By Now I'm Really Quite Interested

So 11.45PM. I witnessed another, the time it was Out/In S
was Sory North to South west. Forgot to mention one @ 11.55
also
"Sory from west to North East. Hot was 4. with my Head in the
Air. My Patience was Rewarded, By Jally over a Hedge Hog in
the Dark. That was a Light.

This must be a Pathway? for, 2 years ago. I witnessed & Reported
to you a massive triangle, craiesy Near as Stopped for over
Half an Hour. I Judged the Speed By a very Large Star or Planet
at the Back. You couldn't Judge if it was moveing, Seen
Sory NORTH
Left East corner. up amongst the Stars. @/t 11 PM. I never look
time & date or month, But most Beautiful night & Sky of Lovely
Pinks & Blues & Stars. I saw a Cigar in Muswellbrook in 1959
with Hundreds of witnesses. Very Low & Large Russet Brown. Flames.
Seems to Be an awful lot of UFO. Seem to Be Sory Somewhere
my one Stopped. I'm on IQ 124 mensa, One has Some intelligence?
This weekend is Rather Unique. Three objects are contacted.
The triangle Sighty for me, was Really Smelly, me was in 'Awe'.
Three Stay Round Stars are on course to wherever? It a
hystery as usual to why? by me Here. Sory To-Too. Do you what?
Your Welcome to my Back Garden if your interested, I Believe
they must now There are extremely advanced Vehicles to ours.
I'm Not a lonely "Attention Seeky" widow. I Drive a mere Short couple
& Have a nice Life, no Ply to Lee about from me.. One worries more
of How 'Little' is made of them. & People are Not Seven Greedy in Truth & Honesty
it Quite "Busy" Here. Yours Sincerely

Dear Section 40

I am writing with reference to the message you recently left on the DAS (LA) Ops and Pol 1 answerphone, in which you report a sighting of an 'unidentified flying object' and said that there had been similar sightings in the West Midlands area recently. As you may be aware, this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, and sightings form the West Midlands in general, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings from that area during the past twelve months. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity. I hope this is helpful.

Yours sincerely

Section 40 [redacted]

Dunton Wood
Solihull

It was a general enquiry; about a year ago she had seen a UFO and was thinking of ringing someone about it but didn't because she had no evidence. Now she was really concerned because there had been a lot of reports in the West Midlands recently, which fitted a similar description. She had quite a lot of information related to the two bright lights she saw that night which she felt were connected to the recent spate of sightings in the West Midlands.

Dear Section 40

Thank you for the message you left on the DAS (LA) Ops & Pol 1 answerphone on 9 July concerning a stationary, triangular object, seen over Hereford Garrison on the evening of 8 July.

You may be interested to know that any reports of 'unidentified flying objects' are examined by the Ministry of Defence solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting.

The details you gave us were passed to the appropriate Air Defence experts in the MOD, who were satisfied that the report did not represent anything of air defence interest. Once again, thank you for reporting this sighting to us.

Yours Sincerely

Section 40

Section 40

MOD Police at Hereford Garrison
Tel: Section 40

On Tuesday 8th July a stationary, triangular object was seen by residents over married quarters at Hereford Garrison around 20:00 and was subsequently reported to MOD police at 22:00. Section 40 and a colleague observed the object for approx 30 mins, in that time it remained stationary at quite at height. At 00:45 they viewed it again through Night Vision Goggles but could not find a logical explanation for it. They informed HQ, RAF Brize Norton, the local police and local airfields about it. In total the object remained visible for approx four and three quarter hours, a few residents being aware of its presence. Section 40 said that he expected that the incident might attract interest from local media considering where it occurred.

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on 15 July 2003. The details have been passed to me as this office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 15 July from Worcestershire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft.

Yours sincerely,

PTO

At 0220L [redacted] called again with an update. He said that the light was moving again from SE to E with an almost vertical ascent. It was significant movement since he first reported it. He described the movement as slower than a satellite moves across the sky and it was still below the cloud cover.

He admitted that he had had a couple of drinks, but he was not drunk (he sounded sober). He said that he knew the basic constellations and that he knows what normal aircraft lights were like.

The DOC + DEOC had a look outside, but could not see anything unusual in the sky. There was very light cloud, but a generally clear sky and full moon.

The gentleman said he worked for Northants police on switchboard and saw an object on his rest day on 14th July at 21:30. He went into his back garden for a cigarette, from his garden he has a good view of Northamptonshire and saw the biggest white light he had ever seen. He was with his girlfriend at the time and couldn't work out what it was, whether it was a star or not. Watched it shoot off across the sky and then disappeared. He called the police station but there were no other sightings reported.

Dear Section 40

I am writing to acknowledge receipt of your letters of 13th, 15th, 28th and 29th July.

Following my colleague, Section 40 letter of 12 May in answer to your previous correspondence, it would appear that you have misunderstood the Ministry of Defence's limited interest in reports of 'unidentified flying objects'. It may therefore be helpful if I clarify our position.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms. While we remain totally open-minded, to date we know of no evidence which substantiates the existence of these alleged phenomena.

Reports of sightings of 'UFOs' received by MOD are examined solely to establish whether they contain any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Once it is established a report does not contain such evidence we do not attempt to establish the precise nature of the sighting, as this would go beyond our specific defence remit.

With regard to the identification of possible planets you have viewed through your telescope, we have no expertise in this field. I note you have also written to the Royal Observatory at Greenwich who, I hope, will be able to assist you.

Yours sincerely,

Section 40

MINISTRY OF DEFENCE,
MET[redacted]OLE BUILDING,

Dear Sir or Madam, 29/7/03.

In my mauve book I have collected 143 pages of information about Aliens and space craft and some information about myself, over the past few years. Most of which has been in my mind or through Telepathy. What seems to come to mind is the Alien race called the Procyons. From 61 CYGNI. One of there stars was going Nova so they had no choice but to prepair to make large space ships to guide there home world or planet to another suitable solar system. They also had lots of small craft. The nearest was our solar system. They decided to come in peace, so they did not develope any weapons.

They decided to land there Large spacecraft in the main civilized countries of the world hoping they would be civilized enough to try to contact them peacefully and not try to destroy them. They are Telepathic. And possibly have a "soul". I am thinking that there soul is the same as ours. I have a bad feeling about this, that we have destroyed them. And also destroyed our future, Both materially and Spiritually. There large spacecraft came to align there Planet which I call planet No. 10. To fit in with the rest of our Solar system. Without any disruption to our World. They came to help our people and Try to help the disabled. But perhaps we did not.

understand the procyons, or there intentions. Perhapes we could not believe that a Alien race similar to ourselves could come in peace, and also try to help disabled people, and our condition.

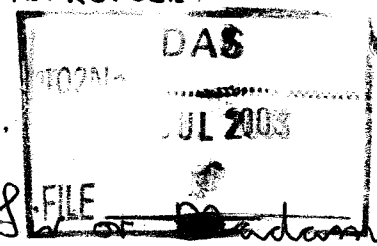

My mauve book has other possible Alien races some could be fact and some could be fiction. But the one that stands out most is the procyons from 61 CYGNI.

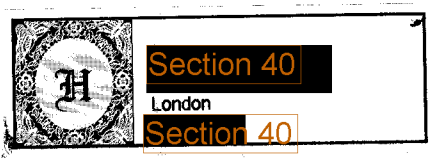

Thanking you for your Kind attention.

Yours Faithfully

Dear Sir or Madam,

I have had an idea for some time about what has happened over Kent ie SOUTH EAST. Lightning without Thunder a possible Star Wars cenario conceived possibly by the Americans. To discredit any possible contact with Aliens. Making them seem like ag_ essors. I wrote to the Royal Artillery Woolwich Barracks SE18. a few years ago about Lightning without Thunder, causing chaos. I did not get a reply. I deduced that it could have something to do with AS IN PHOTOGRAPHY D. I. N. FLASH. A CODE, D FOR DEUTSCHLAND. I. EITHER IRELAND OR INDIA OR BOTH. and N. FOR NORTH KOREA. Possible Satalite dish for activating

aerial array which would look like stars in the sky.

I think that my next door neighbour [redacted] AT [redacted] has got a simular satalite dish for activating aerial weapons, and did so a few years ago, and possibly still got the satalite dish working now, I dont know.

The aircraft possibly deploying the objects in the sky.

SAAB FAIRCHILD 340,
Commercial Transport.
military V.I.P. AIRCRAFT.
Redesigned

Focke Wulf. T.A. 183 =
= "HUCKEBEIN" JET. AIRFIELD POSSIBLY IN IRELAND.

Possibly 3 or 4 satalite dishes in blackheath area, alone. All this is a possible threat to the sanity of our people. All this is whats in my mind.

I have made a diorama of an airfield possibly in IRELAND. with 2 FOCKE WULF T.A. 183. HUCKEBEIN JETS. ONE MESSERSCHMITT P. 1099 B/I. HEAVY ARMOUR. AND A WESTLAND SCOUT HELICOPTER. THE THREE GERMAN JETS WERE POSSIBLE EXPERIMENTLE PROJECTS NEVER DEVELOPED DURING THE SECOND WORLD WAR. SO THERE WOULD BE NO RECORD OF ANY TEST FLIGHTS. In the diorama there is a hanger, and a small dome beside it with iron railings around it, with a electricity pylon near the hanger. Beside the railings is a BACHAM "NATTER" ROCKET FIGHTER, ON A STAND. All this is whats in my mind and also what I constructed, The diorama I made a few years ago. It also has 3 flag masts.

Thanking you for your Kind attention.

Yours Faithfully

15/7/03.

Dear Sir or Madam,

On 8TH JULY 03. I noticed between 3 AND 4 AM. what looked like a yellow orange star in the South. I got my Telescope out and saw what looked like a planet. It was not Jupitor because there were no Galilean moons. It was not Saturn, because there was no ring's, and I dont think it was venus because venus through my telescope usually shows a slight crescent in shape, and is usually bright white in colour. I wondered if you could tell me what you think it could be. There was not any visible stars in the south at that time, so I think that could rule out Mars, too.

PLEASE GO TO PAGE (2)

I observed the planet until 13 JULY 03. There was no sign of it on 13 JULY 03. It reappeared on Monday 14 JULY 03. and I made the last observation on Tuesday 15 JULY 03. AT 3 AM approxi-matly. I have also sent a simular letter to the Royal Observatory Greenwich SE10.

Thanking you for your kind attention.

Date
16 July 2003

Dear Section 40

Thank you for your e-mail dated 3 July, in which you report a sighting of an 'unidentified flying object' at the Glastonbury festival on 28 June 2003. Your e-mail was passed to this office as we are the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 28 June from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Finally, you said that you saw a medium sized aircraft fly into the area, about 5 minutes after the lights and enquired whether there were any aircraft in the area at the time. You may be interested to know that at the request of the local Police Helicopter Support Unit, low level military aircraft temporarily avoid the Glastonbury area during the festival. The arrangement, which is to prevent military aircraft conflicting with the increased level of emergency services and civil aviation, was in place between 26 and 30 June inclusive. I hope this is helpful.

Yours sincerely

Law - Flying /E-MAIL

TREAT OFFICIAL CORRESPONDENCE

To DAS(A) PsP TO Ref No 743 /2003

Date 14th July 2003

Minister/SofS/Min(AF)/Min(DP)/USofS/MOD* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department*.

Ministers attach great importance to correspondence being answered promptly, and we consider it should be sent **within 15 working days of the above date** *(our target is to answer 100% of letters from members of the public within this timeframe)*. If, exceptionally, this should prove impossible, an interim reply should be sent within the timescale. You should be aware that No 10 periodically calls for a sample of replies sent by officials on the PM's behalf for his perusal.

The Government Code of Practice on Access to Government Information came into force in 1997. All replies to members of the public must be in accordance with the provisions set out in the Code (a full explanation is contained in DCI(Gen) 207/01). Further information is available from DG Info on Section 40

Under 'Service First', all Departments and Agencies must ensure that they have systems in place to record and track correspondence received from members of the public (including details of the correspondent and the nature and date of the reply). This information should be regularly monitored and reviewed against published performance standards. We are required to keep information on the number of requests for information which specifically refer to the Code of Practice.

As part of our monitoring procedure, random spot checks on the accuracy of departmental records on correspondence will be performed throughout the year.

To: public@ministers.mod.uk

To whom this may concern,

I had thought the MOD would be the best people to inform about the following. To be quite honest its fairly cliched and embarassing actually having to write this, but there may be a possible UFO sighting last Saturday night, funnily enough about 300ft above the Pyramid stage at Glastonbury festival this year.

I don't believe that it was a lighting effect, plane or helicopter. There was cloud cover a few hundred feet above the lights. People noticed them moving from left to right across the the stage at about 11.22 pm it was directly above at 11.24pm at which point I took a photograph, the lights moved slowly along for another few minutes, then disappeared instantly.

The lights were shaped like this: . .

They were orange in colour and moved as a group, the lights appeared to be moving in a small circular motion. The points appeared to pivot along the lower left point to the right by about 60 degrees and continued on before disappearing. A medium sized aircraft flew in what appeared to be the same direction about 5 mintues later. I was hoping that you may have some record from air traffic control of any aircraft in that area at that time. I have contacted Glastonbury Festival to find out if they had any aircaraft or lighting effets that could have produced this effect at that time.

I would be most grateful if you could look into this and reply to:

REPORT ON A UNIDENTIFIED FLYING OBJECT

A. Date, time and duration of sighting. (Local time to be quoted)

15th Jul 03
2140 hrs

B. Description of object. (number of objects, size, shape, colour, brightness, sound, smell, ect.)

Disk like object, Moving in Sky Slowly, Poised once and headed in a NE direction.

C. Exact position of observer. (Geographical location. Indoors, outdoors, stationary or moving.)

GALSTON ON SEA, NEAR GT YARMOUTH
OUTDOORS, STATIONARY

D. How observed. (naked eye, binoculars, other device, still or movie camera.)

NAKED EYE

E. Direction in which object was first seen. (A landmark may be more useful than a badly estimated bearing.)

F. Angle of sight. (Estimated heights are unreliable.)

G. Distance. (By reference to a known landmark wherever possible.)

Hand to Say, over the Sea.

H. Movements. (Changes in E, F, and G may be of more use than estimates of course and speed.)

DAS-LA-Ops+Pol1

ENCLOSURE NUMBER 47/3

To: PFG CFESys - RDAWN
Subject: Aircraft seen over Melksham

I am writing concerning your e-mail of 15 July about the aircraft you saw over Melksham, Wiltshire on 26 June. This Department is the focal point within the MOD for correspondence concerning 'unidentified flying objects' and it may be helpful if I explain our role in these matters.

We examine any reports of 'UFOs' we receive solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the UK from an external military source, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, we are satisfied that there is no evidence that UK airspace was breached by unauthorised military aircraft on 26 June.

As for identification of the type of aircraft you saw, you may wish to be aware that military aircrew conducting low flying training (below 2000 feet) are required to book their routes through particular low flying areas and it is therefore possible to say which aircraft are booked into which areas at a given time. However, above 2000 feet, outside of Military Air Traffic Zones, they fly in uncontrolled airspace, where there is no such requirement. We are therefore unable to assist with your enquiry. As you were unable to see any markings it is also possible that the aircraft you saw was civilian.

PFG CFESys
[redacted]
e-mail http: PFG-ESys@dpa.mod.uk

Spoke to [redacted] Brize Norton [redacted] confirmed not a C17.
No unusual American aircraft in the UK. Not connected to RIAT.
Above 2000ft in uncontrolled airspace.

No contrail or exhaust plume visible

Engine noise similar to Canberra but less high frequency, noise suggested a possible twin jet

No engine nacelles/ pods, no visible exhaust ports at the rear of the fuselage or along wing training edges

Nose less pointed and narrower than shown, more or less the same as the wings

Almost a perfect 3 blade propellor profile except for longer nose area and less distance across the slightly shorter wingtips

Perfectly blended outline viewed from below, underside very smooth/ clean no sign of joints or control surfaces

Wingtips rounded

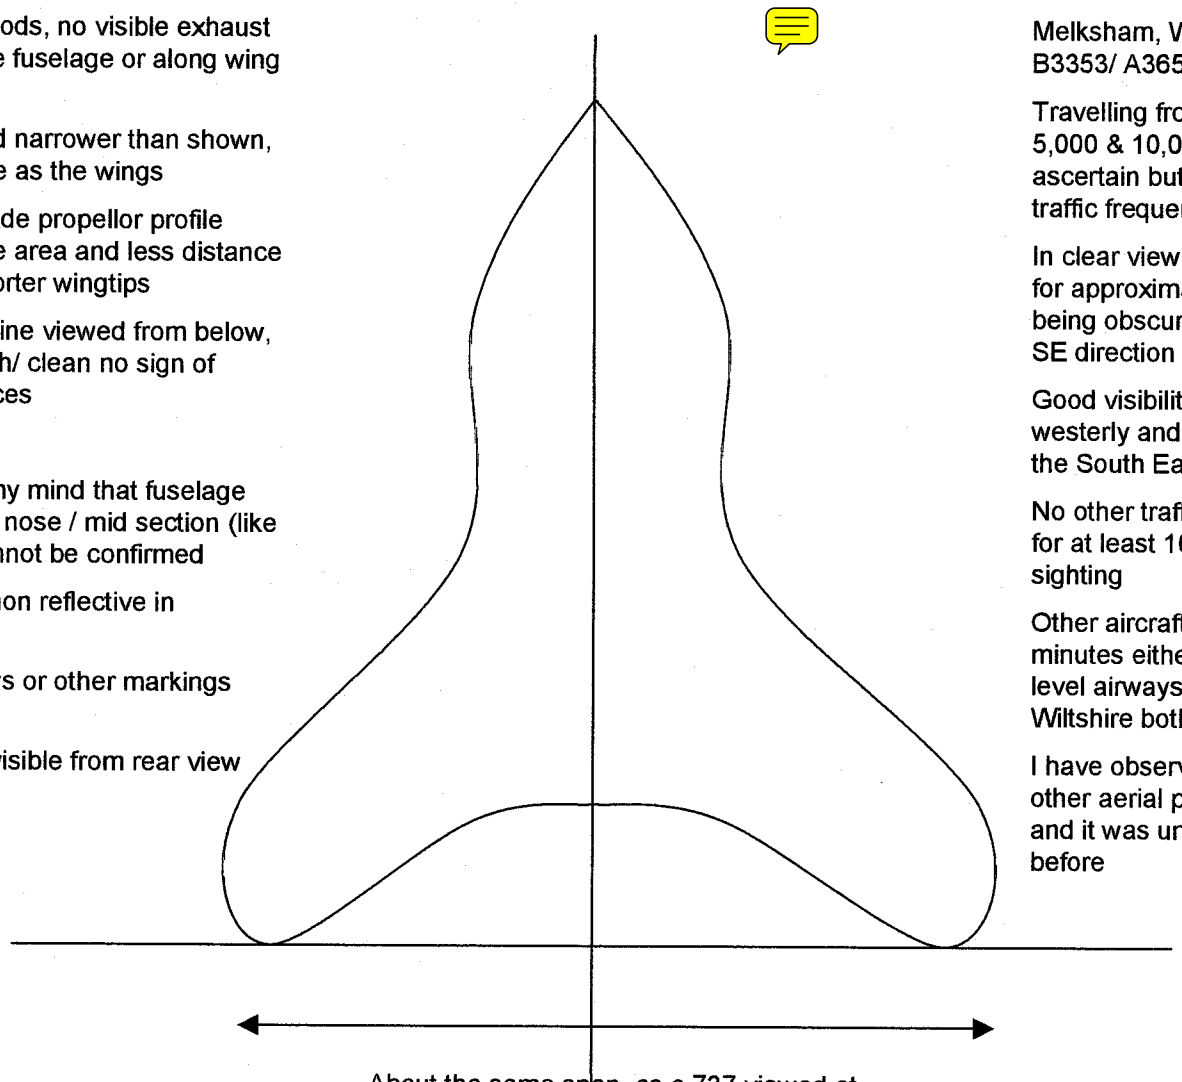

Some suggestion in my mind that fuselage had a chine along the nose / mid section (like Blackbird) but this cannot be confirmed

Silvery white colour, non reflective in sunshine

No paintwork, windows or other markings visible

No vertical stabiliser visible from rear view

No anti collision lights

About the same span as a 737 viewed at around 10,000 feet (guess 100 feet?)

Unidentified Aircraft 26 June 2003

Melksham, Wiltshire, crossing the B3353/ A365 junction at at 16:28

Travelling from NW to SE at between 5,000 & 10,000 feet, speed difficult to ascertain but about the same as civil traffic frequently seen overhead

In clear view through a 60 degree arc for approximately 45 seconds before being obscured by a cloud bank in the SE direction towards Semington

Good visibility with hazy blue sky, wind westerly and light, heavy rain cloud to the South East & South West

No other traffic was near this flight level for at least 10 minutes either side of my sighting

Other aircraft were visible within a few minutes either side of 16:28 in higher level airways that cross this part of Wiltshire both East & West bound.

I have observed aircraft, satellites and other aerial phenomena for 40 years and it was unlike anything sighted before

Dear Section 40

Thank you for your letter dated 15 June 2003 regarding a sighting of an 'unidentified flying object' on 30 May 2003 at 23:25. We have spoken to Humberside Police who confirm that they received a report from a member of the public on 30 May at 23:45 of a bright light in the sky. Apparently, there was a police helicopter conducting a routine patrol of the area but the policemen on board did not report seeing anything unusual in the sky that night. We received no other 'UFO' sighting reports for that date from anywhere in the United Kingdom. I hope this is helpful.

Yours sincerely

Section 40

FILE NOTE

Following the enquiry made by Section 40 checks with Humberside Police Helicopter Support Unit revealed that they received one report from Section 40 of Section 40 Hull on 30 May 2003 at 23.45 (police reference 13/02). Section 40 reported seeing a bright light in the sky and wondered what it was.

Section 40 confirmed that he was sitting in the co-pilots seat of the McDonald Douglas 902 helicopter, callsign OSCAR 99, operating a thermal imaging camera. They frequently fly over crime hot spots to see if they can spot any criminal activity. PC Section 40 commented that on this occasion they spotted five youths abandoning and setting fire to a stolen car. PC Section 40 said there are a few night clubs in the area who have lazer beams on the roof which they shine into the sky. He is also aware of occasions where poachers have used high powered lamps to frighten rabbits and have shone these at police helicopters in order to blind the policemen in order to distract them from their activities. On the 30 May there were three Policeman in the helicopter and none of them saw any unusual lights in the sky as described in Section 40 Section 40 letters.

15 June 2003.

Dear Section 40

Many thanks for your continued correspondence regarding the accident of Captain William O. Schaffner and for providing additional information relevant to that incident, it is very much appreciated.

The reason for this letter is a new enquiry about a reported event in the Hull area currently proliferating the Internet and involving a UFO/s observation conjointly with the Humberside Police Helicopter, occurring on 30 May 2003 at 23:25. I ponder if you have received any correspondence and/or other enquiries about an alleged UFO incident on this date in the East Yorkshire and Lincolnshire areas and what you may be at liberty to divulge about them?

I have written to the local 'Humberside Police Helicopter Support Section' to enquire with them, but wonder if any report has reached the MoD from them or any other source? If so, how many reports/enquiries and what is stated, asked? Does the MoD have an explanation for what may have been observed?

Here is the report as it appears on the Internet, verbatim:-

'Filer's Files #24 -- 2003 Skywatch Investigations.
George A. Filer, Director Mutual UFO Network Eastern
June 11, 2003, Majorstar@aol.com Webmaster: Chuck
Warren -- My website is at: www.GeorgeFiler.com/

ENGLAND - BRIGHT LIGHT OBSERVING POLICE HELICOPTER FOR 10 MINUTES

KINGSTON-UPON-HULL - A witness who holds a position of responsibility, and possesses considerable technical background observed a light approach at high speed at 11:25 PM on May 30, 2003. It stopped about 300 meters away from the circling overhead police helicopter and continued to "observe" it for ten minutes in the dark, clear sky. It not only stopped and observed →

the helicopter; it made circular sweeps and right angled sweeps. When the helicopter vacated the area, the light flew at vast speed in a southeast direction and disappeared. It was impossible for it to be an airplane as the object was stationary when it was observing. It couldn't have been a helicopter as the right angled movements it made would not have been possible for this type of aircraft. This is the first time I have ever seen something like this, and to be honest it was a weird experience and fascinating to watch it perform. When it vacated the air space, I can only describe it as "bloody fast" and silent as the light faded. It was a really wonderful experience. I reported the incident to my local police. Thanks to NUFORC'

Hoping you can help, I remain
Yours sincerely

Dear Section 40

Thank you for the message you recently left on our answerphone and your subsequent letter regarding a sighting of an 'unidentified flying object' on 14 June 2003. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 14 June from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

14TH JUNE 2003.

DEAR SIR

TODAY ON THE 14TH OF JUNE 2003 SATURDAY I SAW IN THE AFTERNOON ABOUT THREE THIRTY TO THREE FIFTY NINE AN U.F.O.

THIS U.F.O. WAS TRAVELLING FROM LEFT TO RIGHT; CLEARLY CYLINDER LENGTH SHAPE ACROSS THE SKY. THE NOSE APPEARED TO BE MOVING OR SWEEPING SLOWLY IN A SEMI-CIRCLE MOVING THE REAR IN A SIMILAR MANNER. IT APPEARED TO BE METAL.

I IMMEDIATELY PHONED HEATHROW AIRPORT THINKING OF THE AIR-LANES. WHO GAVE ME A NUMBER OF AIR TRAFFIC CONTROL I WAS GIVEN YOUR MOD NUMBER. TO WHOM I MADE A STATEMENT. I NOW SEND A LETTER.

AROUND THE U.F.O. APPEARED TO BE A FAINT CIRCLE OF STARS.

Section 40 [redacted]

My Telephone Number is

Section 40 [redacted]

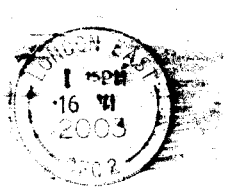

The U.F.O. was clearly not a flying bomb as one saw in W. War II. Chugging along it made no such noise.

Years ago whilst staying in a cottage near Bath which belonged to a friend who worked for the Admiralty. I saw the Concorde flying across the sky in its experimental stage. So interesting.

Could this U.F.O. have been from Cape-Canavaral? It had no wings and was not losing height.
Could it have been taking aerial-photographs?
I saw this in my rear garden, clearly not civil aviation. I live in Walthamstow.
I do hope there is some explantion.
Pardon the size of the note paper and my handwriting

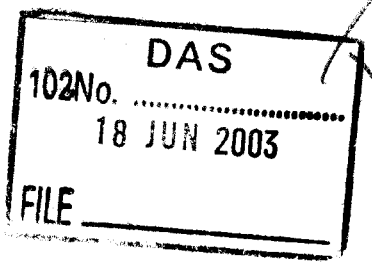

Yours truly

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	**Date and time of sighting.** (Duration of sighting.)	Sunday 14th June 2003 @ 15:39
2.	**Description of object.** (No of objects, size, shape, colour, brightness, noise.)	Cylinder shaped with radius around it of what looked like faint stars. Didn't know if it was giving off some kind of signal. Thought it was metal as light was shining off of it. No sound.
3.	**Exact position of observer. Geographical location.** (Indoors/outdoors, stationary/moving.)	Outdoors, in back garden.
4.	**How object was observed.** (Naked eye, binoculars, other optical device, camera or camcorder.)	
5.	**Direction in which object was first seen.** (A landmark may be more helpful than a roughly estimated bearing.)	Moving Left to Right, out to Essex or the coast
6.	**Approximate distance.**	About as high as a civilian airliner.
7.	**Movements and speed.** (side to side, up or down, constant, moving fast, slow)	
8.	**Weather conditions during observation.** (cloudy, haze, mist, clear)	

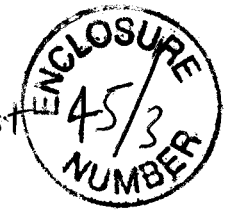

9.	**To whom reported.** (Police, military, press etc)	DAS (LA) Ops & Pol 1 Answerphone
10.	**Name, address and telephone no of informant.**	Section 40 [redacted] Walthamstow Section 40 [redacted] Tel Section 40 [redacted]
11.	**Other witnesses.**	
12.	**Remarks.**	Informant said she had seen another UFO years ago near the Admiralty in Bath. Informant said it was not a balloon or an aircraft as she had seen many jumbo jets fly over Walthamstow.
13.	**Date and time of receipt.**	Monday 16th June 2003 @ 09:00

Date
10 June 2003

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 25 May 2003, which has been passed to this office. We are the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

I should wish to assure you that the integrity of the UK's airspace in peacetime is maintained through continuous policing of the UK Air Defence Region by the Royal Air Force and we remain vigilant for any potential military threat. We are satisfied that there is no corroborating evidence to suggest that on the 25 May the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

Section 40

CREDIBLE WITNESS REPORT – 11 APR 03

Reference:

A. D/DAS/64/2 dated 23 Apr 03.

At Reference, you asked whether the report submitted by a civilian airline pilot regarding a sighting of a ball of fire on the approach to Stansted Airport on 11 Apr 03 represented anything of air defence interest. Further to our discussions on the incident, there appears to be no direct operational implication from an air defence perspective.

Signed on CHOtS

Dear Section 40

Thank you for your e-mail dated 6 May 2003, in which reporting a sighting of a black triangle at around 18:30 on 5 May 2003. This office is the focal point within the Ministry of Defence for correspondence relating to 'unidentified flying objects.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 5 May from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Low Flying

From: Section 40 [redacted]
Sent: 06 May 2003 19:04
To: lowflying@defence.mod.uk
Subject: Black Triangle

Hi, I'm not really sure if I'm sending this to the right address but here goes.

Yesterday I was out in my back garden about 6:30pm and then I noticed a black triangle flying quite fast and silently through the sky in a single direction. I live under alot of flight paths and know this was no normal plane.

Any information about what it was would be helpful. Thanks in advance.

Sincerely, Section 40 [redacted]

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 7 April 2003, which was passed to this office by RAF St.Mawgan. We are the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 7 April from Cornwall. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

TREAT OFFICIAL CORRESPONDENCE

From: Das La Pz Pz

UFO

TO Ref No 4CSS /2003

Date 22nd April 2003

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent within 15 working days of the above date. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of correspondence sent by officials on the PM's behalf for his perusal.

The Government Code of Practice on Access to Government Information came into force in 1997. All replies to members of the public must be in accordance with the provisions set out in the Code (a full explanation is contained in DCI(Gen) [redacted]. Further information is available from DG Info on Section 40

Action This Week. All Departments and Agencies must ensure that they have simple systems to record and track correspondence received from members of the public (including details of the correspondent and the nature and date of the reply). This information should be regularly monitored and reviewed against published targets. In addition, you are required to keep information on the number of requests for information, which specifically refer to the Code of Practice.

Action Next Month. A monitoring procedure, random spot checks on the accuracy of [redacted] records on correspondence will be performed throughout the year.

8/4/03.

Dear Sir or Madam,

1883/03

I would like to report two silver objects that seemed to be stationary in the sky possibly near the city airport, one seemed to be closer than the other. This happened in the morning about 9-20 AM. on Monday 31ST MARCH 2003. I was walking up corelli road about halfway up when I saw the two images for about 2 seconds. I thought I would let you know, as I did not see anything on T.V. or in the newspapers about it. I dont think it was an aircraft.

Thanking you for your Kind attention.

Yours Faithfully

Dear Section 40

I am writing with reference to your telephone call of 24 April concerning the aircraft and helicopters you see over your home and your belief that you may be attracting them by playing music CDs. This Department is the focal point within the Ministry of Defence for reports of 'unidentified flying objects'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat to the United Kingdom from an external military source, we do not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I can confirm that we have received no other reports of 'UFO' sightings for 24 April in your area and we are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised military aircraft. You may wish to be aware, however, that Shepherds Bush is within airspace controlled by London Heathrow and it is therefore likely that you will see civil aircraft in the vicinity on a regular basis.

I hope this is helpful.

Yours sincerely,

Section 40

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	**Date and time of sighting.** (Duration of sighting.)	No particulars given
2.	**Description of object.** (No of objects, size, shape, colour, brightness, noise.)	Aircraft & helicopters, various types
3.	**Exact position of observer. Geographical location.** (Indoors/outdoors, stationary/moving.)	Indoors
4.	**How object was observed.** (Naked eye, binoculars, other optical device, camera or camcorder.)	Naked eye
5.	**Direction in which object was first seen.** (A landmark may be more helpful than a roughly estimated bearing.)	Low outside the window of block of flats
6.	**Approximate distance.**	Not given
7.	**Movements and speed.** (side to side, up or down, constant, moving fast, slow)	Various speed & heights
8.	**Weather conditions during observation.** (cloudy, haze, mist, clear)	Not given

9.	**To whom reported.** (Police, military, press etc)	DAS-LA-Ops + pol1 Also spoken to CAA (who gave him MOD number) and local Police
10.	**Name, address and telephone no of informant.**	Section 40 [redacted] Shepherds Bush London Section 40 [redacted]
11.	**Other witnesses.**	None mentioned
12.	**Remarks.**	Informant is a DJ and believes that when he plays his music CDs he is attracting UFOs to come down from their Starships behind the clouds and maybe even causing them to land at Heathrow Airport. He bases this on the fact that he often sees helicopters (sometimes with a searchlight coming down from them) and aircraft (described as Concorde, 303s, 404s & 606s) flying over or close to the flats where he lives. He has lived there for 20 years and been seeing this for about 10 years and thinks he should tell someone in authority.
13.	**Date and time of receipt.**	24 April 2003 16.30L

RECORD OF TELEPHONE CONVERSATION BETWEEN Section 40 AND Section 40 ON 19 MARCH 2003

Reference: D/DAS/64/2 dated 13 March 2003

Section 40 phoned to ask why we would not be investigating the sighting of lights he has been seeing since Christmas near his home in Wellingborough. He explained that what he was seeing was not a 'UFO' in the normal sense, but that he believed it was something man-made. Section 40 had contacted the police who had suggested he report it to us. I re-iterated our policy and that we did not investigate sightings and he said thate he would take the mater to his local councillors and press. I suggested he try the Met Office and gave him the phone number.

Date
13 March 2003

Dear Section 40

I am writing with reference to your report of sightings of 'unidentified flying objects' over Wellingborough during February 2003, the details of which were left on the DAS (LA) Ops & Pol 1 answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings during February from Wellingborough. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

Section 40

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	**Date and time of sighting.** (Duration of sighting.)	Monday 24th February 2003 (for the past three weeks)
2.	**Description of object.** (No of objects, size, shape, colour, brightness, noise.)	Very bright white light with about 5 other lights around it. The light itself is stationary but the other lights move like rings around it. Looks like a barrage (?) balloon from WWII.
3.	**Exact position of observer. Geographical location.** (Indoors/outdoors, stationary/moving.)	Indoors. Object has been observed for the past three weeks
4.	**How object was observed.** (Naked eye, binoculars, other optical device, camera or camcorder.)	First with naked eye, then with binoculars. At the same height about 5 miles away could be seen (through binoculars) a similar object.
5.	**Direction in which object was first seen.** (A landmark may be more helpful than a roughly estimated bearing.)	
6.	**Approximate distance.**	Estimated at 10,000 feet.
7.	**Movements and speed.** (side to side, up or down, constant, moving fast, slow)	Lights around the main object moved quickly – Main object is completely still.
8.	**Weather conditions during observation.** (cloudy, haze, mist, clear)	

9.	**To whom reported.** (Police, military, press etc)	DAS(LA)Ops&Pol1a answerphone
10.	**Name, address and telephone no of informant.**	Section 40 Wellingborough Tel: Section 40
11.	**Other witnesses.**	Informant's wife
12.	**Remarks.**	Informant is retired, an ex London policeman and Royal Marine
13.	**Date and time of receipt.**	Monday 24th February 2003 @18.28

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 2 March 2003, the details of which were left on the DAS (LA) Ops & Pol 1 answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 2 March from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

CREDIBLE WITNESS REPORT – 29 JAN 03

Reference:

A. D/DAS/64/2 dated 17 Feb 03.

At Reference, you asked whether the report submitted by Sgt Section 40 regarding a sighting of 2 triangular shaped objects over Wolverhampton on 29 Jan 03 represented anything of air defence interest. I have checked with the operational air defence community and can confirm that the incident does not represent anything of air defence interest.

Signed on CHOtS

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 15 January 2003, which was passed to us by RAF St.Athan. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 15 January from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely

Dear Section 40

I am writing with reference to your letter of 21st January addressed to my colleague Section 40 regarding your daughter's telephone call to this office on the 10th January. It may help if I clarify matters.

I spoke to your daughter at approximately 09.10 on the 10th January when she told me she had seen lights in the sky in the early hours of that morning. She described the lights as formed in the shape of a worm, wriggling around in the sky and then described events similar to those in your letter. Your daughter told me you telephoned Peckham Police and that they had sent Policemen and people dressed in "space suits" with dark glasses to visit you. She was particularly concerned as to who these people might be.

As Section 40 informed you, the only interest the Ministry of Defence has in sightings of unusual lights or objects seen in the sky is whether they present any evidence that UK airspace might have been compromised by hostile or unauthorised air activity. Following your daughter's call, I made enquiries with our air defence experts, who confirmed there had been no events of air defence concern. I also spoke to Peckham Police who confirmed that they had sent Policemen to visit you.

With regard to the people in "forensic boiler suits" as mentioned in your letter, I should inform you that Ministry of Defence investigations do not go beyond those described above and we do not send anyone to visit people who report sightings to us. I am sorry to hear that you are experiencing problems with your eyes, but I can assure you that these events were not instigated by the Ministry of Defence and we were unaware of them until your daughter's telephone call. If you have any enquiries about the Police handling of your telephone calls these should be directed to Peckham Police.

I hope this is helpful.

Yours sincerely,

Section 40

YOUR REF: D/DAS/64/2

21ST JANUARY 03

Section 40 [redacted] DIRECTORATE OF
AIR STAFF (LOWER AIRSPACE)
OPERATIONS & POLICY 1A
MINISTRY OF DEFENCE, ROOM 673
METROPOLE BLDG., NORTHUMBERLAND AVE,
LONDON WC2N 5BP.

Dear Sir,

We are in receipt of your letter dated 16th Jan '03 and I reply on behalf of my daughter Section 40 [redacted] & myself.

First of all I would like to point out that neither my daughter nor myself have any interest in flying saucers, UFO's or the like and only informed Peckham Police Station because what we saw, by pure chance, was so unusual. We did not ask the police to come to our house as we did not feel threatened or frightened. It was their suggestion to come.

We do not doubt your integrity in the way you maintain air defence in the U.K. and we did not ask you to investigate anything on our behalf, as your letter implies.

You also state in your letter that two officers called on us at approx 3-15 am. This is incorrect. Two officers called on 9/1/03 at approx 2:15 am. The same two officers came back at approx 3:15 am., this time dressed in white forensic boiler suits and black anti uv binocular glasses and they were accompanied by two other police officers in normal police uniforms. They told us they had made a definite confirmed sighting and advised us not to look at the object through binoculars as we had been doing. They asked us if we would like to see a Police Doctor or use a solution to bathe our eyes. Although our eyes were smarting and watery we did not think we needed to see a

doctor at that stage. The officers advised us that should our eyes worsen or if we developed head-aches we should call the station and the police doctor would come to examine us.

The officers asked us if we had called the media or told neighbours, which we had not and still haven't. They suggested if any neighbours asked we should say we had a gas leak. They spoke as 'Mork to Mindy' over their walkie-talkie and they asked us what our birth signs were. They also asked us if an ambulance had called at our house that day which we thought was a very strange thing to ask. His reply was "these things are attracted to ambulances".

We have since learned that 'Mork & Mindy' was a T.V. programme about aliens, your men have fed us with a lot of rubbish, presumably to make us look foolish and our story unbelievable, which they have succeeded in doing. The cruellest ploy of all came from a P.C. [redacted] (I doubt that he exists) when my daughter 'phoned Peckham Police Station to request a visit from the police doctor and he told her if she quoted Code CAD 670 when we attended the Rheumatology Clinic at Guys the following day 13/1/03 the doctor would know what to do. He said all hospital consultants and G.P.s had been alerted to this code. Of course when we told the doctor this she wondered what on earth we were talking about. She 'phoned Peckham police Station and was told CAD 670 was our serial no. and they would not confirm our report of events. at this time my daughter, who is physically disabled and already has quite a lot to contend with medically, was feeling unwell and on the journey to hospital by ambulance, could not bear the sun in her eyes and could not open her eyes fully. The Rheumatology Clinic

could not help us and we were transferred to the A&E at St. Thomas'. The doctor tried to look into her eyes but when he shone a light into her eyes she suffered a severe seizure.

Now the situation is serious. Our G.P. Dr. Section 40 is arranging appointments for us both to see an eye specialist but we need to know what we are dealing with. Is there any danger of radiation in the eyes and if so how do we deal with it?

There is obviously a web of conspiracy and lies and whilst we realise that some matters must remain covert to prevent public panic, we have, unfortunately, become involved and our health is at stake. It would be morally wrong to deny what took place and refuse to give doctors the correct guidelines on the kind of treatment we may need.

Your urgent reply is requested.

Yours faithfully

Date
16 January 2003

Dear Section 40

I am writing with reference to your telephone conversation with my colleague Section 40 on 10 January 2003, concerning the unidentified lights that you and your mother saw at approximately 01:00 that morning.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular sighting, Section 40 contacted the Police who confirmed that they had sent two officers to see you at around 03:15, but they were unable to see anything. We received no other reports from the London area. Enquiries with our air defence experts has confirmed that there is no evidence to suggest that unauthorised military activity, or any other activity of air defence interest, occurred on the 10 January. Finally, I should wish to assure you that the integrity of the UK's airspace in peacetime is maintained through continuous policing of the UK Air Policing Area by the Royal Air Force and we remain vigilant for any potential military threat.

Yours Sincerely

Section 40

MESSAGE RECEIVED 10 JANUARY 2003

I received a call at 09.15 on 10 January 2003 from Section 40 of Section 40 East Dulwich, London, Section 40 She said that at 01.00 this morning her Mother got up to get a drink and saw out of the window some lights, formed in a worm shape, wriggling around in the sky. She called Section 40 Section 40 who looked at it through binoculars and described it as like looking at bacteria under a microscope. She said it hurt her eyes to look at. There were also helicopters in the air.

Section 40 was frightened about a possible terrorist attack and phoned Southwark Police (numbers given by Section 40 They told her to phone Peckham Police Section 40 Peckham Police sent two Policeman to see them at 01.15 but when they arrived the object had gone behind cloud and could not be seen. The Policemen told her to call them if it reappeared and gave her a reference number CAD 670 which she thought was odd.

At 3.15 the object reappeared and Section 40 called Peckham Police again. They sent a Police car with two Policemen and two men in "space suits, with dark glasses who called themselves Mork and Mindy". These men told her not to look at the object because of possible radiation and they carried a transmitter which kept clicking. As her eyes were already hurting from looking at the object, they offered to wash them out with a solution, but she refused. They told her not to talk to anyone about this and certainly not the press in case it caused panic. They asked her and her mother what their birth signs were and asked if they had called an ambulance that day. They also gave her another telephone number to call Section 40 She called this but could not tell me who it was. This person gave her another number- Section 40 Section 40 This was a Section 40 (she didn't know who he was) and he gave her my number. Section 40 alternated between saying she was worried that aliens were visiting and, that it could be terrorism. She wondered who these men in "space suits" were and added that she thought military aircraft had been scrambled, although she first said it was a helicopter, then it "was like a bomber".

I explained our limited defence interest but, as she was so worried, I said I would speak to Peckham Police and consult our defence expert to make sure there was nothing of any defence concern.

I telephoned the number Section 40 gave me for Peckham Police. This turned out to be Belgravia Police. They informed me that Peckham is covered by Southwark Police and their telephone number is Section 40 I spoke to Communications Officer Section 40 in the control room. She would not fax me the details in accordance with the Data Protection Act but confirmed the following;

Section 40 telephoned them at 02.30 and said she could see lights in the sky and she was worried it could be aliens (no mention of terrorists). They told her that it may be a laser show and made some local enquiries. However, when they were unable to confirm this they told Section 40 that if she was worried she could telephone the CAA and gave her the number. Section 40 continually kept telephoning the Police describing what the object was doing. She sounded distressed, so at 03.20 the Police sent two policeman to see her. They could not see anything in

the sky and concluded that it was possibly a reflection of a star and a street light in her window. These were two ordinary Policemen, they did not have any "men in space suits" with them and do not carry any kind of radiation monitoring equipment. They only visited Section 40 home on this one occasion.

DAO-AGDE 1 confirmed there was nothing of defence concern. See e-mail attached.

Letter sent to Section 40

To: DAS-LA-Ops+Pol1
Subject: FW: UFOs

Section 40

Nothing happened at the time on the air defence front. Judging by the area in which the lady lives, she could have seen aircraft (possibly in a stack) on the approach to Heathrow, Gatwick or City Airport or, alternatively, at that time of the morning maybe the police were mounting an operation with one or more of their helicopters?

To: DAO ADGE1
Subject: UFOs
Auto forwarded by a Rule

Section 40

I realise you are busy with much more important issues than UFOs at the moment, but I wonder if you have a minute to confirm whether there was anything of defence concern happening over East Dulwich, London SE22 between 01.00 and 04.00 on 10 January.

I have received a report from a rather distressed (and prehaps confused) lady who is concerned that she may have witnessed a terrorist incident and believes she saw military aircraft that had been scrambled.

I can provide further details if required.

Thanks

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 13 January 2003, which was passed to this office by the Scottish & Oceanic Air Traffic Control Centre. We are the focal point within the Ministry of Defence for correspondence relating to 'unidentified flying objects'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 13 January from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

CREDIBLE WITNESS REPORT – 4 JAN 03

Reference:

A. D/DAS/64/2 dated 7 Jan 03.

1. At Reference, you asked whether the credible witness report submitted by the SATCO at Benbecula Airport represented anything of air defence interest. There is no evidence that unauthorised military activity or any other activity of air defence interest occurred on 4 Jan 03 in the Benbecula area.

Signed on CHOtS

Report of Unidentified Flying Object

A Date, Time and Duration of Sighting
Saturday 4th January 2003, between 1920 and 1935, 15 mins

B Description of Object
One object with a very bright light like an aircraft's landing light with a smaller dimmer light on top of the bright light

C Exact Position of Observers
Two miles west of Benbecula Airport on first sighting and then from the control Tower at the Airport and again One-mile east of the Airport before it dimmed And then disappeared

D How Observed
At first with the naked eye as a passenger in a vehicle driving towards Benbecula Airport from the west and then with Binoculars from the control Tower at the Airport and again with the naked eye.

E Direction in which Object was First Seen
Aprox bearing 080 degrees from Benbecula Airport just south of Eaval

F Angular Elevation of Object
Aprox. 45 degrees to 60 degrees (500ft to 1000ft agl)

G Distance of Object from Observers
South East of Eaval over the small island of Flodaigh Beag 7nm East of Benbecula Airport

H Movements of Object
Stationary but moving up and down

J Meteorological Conditions During Observations
The Benbecula Automatic met. Observation at 1920 was :-
Calm 9999 Wxnil Few035 01/-01 Q1020

K Nearby Objects
The Mountain "Eaval"

L To Whom Reported
HM coastguard at Stornoway Local Police, Watch Supervisor ScATCC

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 7 January 2003, which was passed to us by the Aeronautical Information Service (Military) at RAF West Drayton. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 7 January from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours Sincerely

Subject: Re: Reports of sightings of UFOs

Dear madam

Thank you so much for writing back to me regarding the above subject.
as you said inside your last email about giving you an area and date i have provided below some dates

area : wiltshire /salisbury
date : sept/oct 1992

area : wiltshire /salisbury
date : sept/oct 1993

I understand that some people belive in aircrafts lights projecting beams across the sky and weather ballons,satalites,hot air ballons can explain some storys . but this thing was as big as a 10 houses and glowed more colours than the colour spectrum and at early evening it made a few of us think "what was that we just seen" ?
it made the newspaper the local and the national but at the moment that is like finding a needle in a haystack ! with them .

hope you can dig around for me as i am in need to find out what this was ?

kind regards Section 40 [redacted]

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 14 November 2002, which was passed to by National Air Traffic Services Ltd, Manchester Airport. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 14 November from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

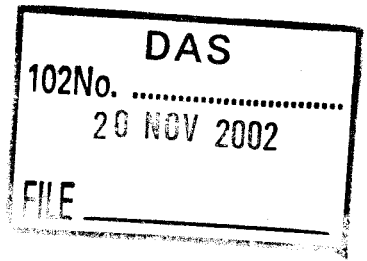

Yours sincerely

Dear Section 40

I am writing with reference to your two letters dated 16 September and 21 October 2002, which have been passed to us by the National Air Traffic Services. As you know, this office is the focal point within the Ministry of Defence for correspondence relating to 'unidentified flying objects'.

With regard to the reports of 'UFO' sightings over Heathfield, East Sussex on 22nd August 2002, I can confirm that we have received no sighting reports for that date from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity. As you will be aware from previous correspondence, this is our only interest in these matters and I am afraid, therefore, that it is beyond our remit to assist you further in the identification of these anomalous lights.

Yours Sincerely

Dear Sir:

I am currently investigating reports of anomalous aerial lights over Heathfield, East Sussex, on August 22nd 2002 at 22.25, and over Shropham, Norfolk on the same date at 21.30. I am writing to enquire if anything unusual was detected for these locations and time frame.

I have already ascertained that two aircraft were near to Heathfield during this time frame:

GB Airways Boeing 737-300, flight no. GBL45A, at 21.26, at a height of 7700 ft

Astraeus Boeing 737-600, flight no. AEU238, at 21.22, at a height of 7800 ft.

I would be exceedingly grateful for any information that you may be able to provide in respect to this enquiry.

Yours Sincerely,

Dear Sir or Madam:

I am currently investigating reports of anomalous aerial lights over Heathfield, East Sussex, on August 22nd 2002 at 22.25, and over Shropham, Norfolk on the same date at 21.30. I am writing to enquire if anything unusual was detected for these locations and time frame. I also wish to ascertain the airlines and flight numbers of any aircraft over flying these locations at this time, if possible. The witness of the Sussex incident did report the presence of aircraft over-flying the location at this time.

I would be exceedingly grateful for any information that you would be willing to provide in respect to this enquiry.

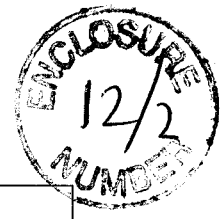

Yours Sincerely,

Section 40
LLANERCHYMEDD
Isle of Anglesey
Section 40

Dear Sir,

4th DEC. 2001

I am in receipt of your letter R.E.F D/DAS/64/2 dated 21.11.02. with reference to my report to R.A.F. Valley of a sighting of an U.F.O on the night of 2/11/02.

I have no desire to seek any publicity or indeed any further correspondence from you concerning this matter. I must stress and plead that you take this report very seriously. I observed it first of all at a distance of about 2 miles away and eventually with the aid of binoculars watched it for almost 10 minutes as it gained height and disappeared, I believe into space.

I know what aircraft look like at night. I have R.A.F Valley nearby

and civil aircraft pass overhead on one of the flight paths to Manchester Airport.

As for natural phenomena! Could a mistake an object that looks like it has been constructed with aluminium with very bright lights, solid enough to momentarily blotted out the stars from view as it traversed in the sky.

As far as no other sighting reported from anywhere else in the U.K.

It was rather late at night for this area. Farmers go to bed early. It transmitted no sound and apart from one solitary brownish light, it looked as if it was blocked out until over open sea, then it just rose gently not dashing about all over the place.

It should positively have shown on RADAR.

Yours Sincerely.

4/11/2002

Dear Sir,

On Saturday night the 2nd November 2002 a minute or two before 11pm I looked out of the back kitchen window to check on the weather and as I live under one of the flight paths to Manchester Airport I usually seek navigational lights of passing aircraft, although by that time of night they are pretty rare.

Suddenly my attention was drawn to one solitary light where no light should be about ¼ mile away and I estimated about ground level. It appeared round about the size of a football with an opaque brownish colour. It was eerily still as if it was staring at me so I went for my binoculars. When I looked at it again it began to move slowly to the left (my right) until it went out of sight behind a rise in the ground on the skyline. A matter of seconds later I saw it rise over what I perceived to be over the sea a mere ½ miles from where I first saw it and at a height of perhaps 2 - 3,000 ft. rising gently and lit by unbelievable white light that created an aura around it like fine mist. This enabled me to observe this large object as being saucer like in appearance and aluminium grey/ish white in colour. It had windows around it so bright I could see nothing above that although by now of course I was looking up at it. It was still rising at a most leisure pace no hurry at all at I estimated an obtuse angle of 100/110° by now perfectly camouflaged amongst the starry background Had I not followed it from ground level and with the aid of binoculars I doubt if I would have spotted it.

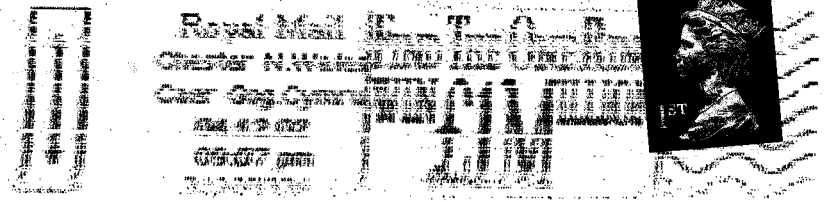

I had to be very careful not to take my eyes off it for fear of loosing contact with it. As it traversed up it became obvious it was a solid object, it temporarily obscured the stars as it moved between them and my eyes. Altogether I had the object in view for over ten minutes until, I believe it entered space. I have no doubt it should have been picked up by radar just off N.E coast of Anglesey.

On Monday morning I saw the local milkman and for fear of ridicule I only mentioned having seen a strange light over the back fields on Saturday night. He said to me "That's strange, what time was that?" I told him 11 pm! He then said: "Well! my son and I were driving through RHOSGOCH (which is about 3 miles from my back door) just after 7 pm when I elbowed him and said, "what the hell is that silver thing in the sky" He could not keep track of it because of the hedges and narrow country road. I wondered where had it been between 7 pm and 11 pm. Plenty of isolated fields for touch down. It would not fly around there for 4 hrs. What I witnessed at 11 pm was an object blacked out apart from the one orange light and rising from almost sea level. It was quite a large object and was absolutely silent. Farmers go to bed early around here. It lifted up gently did not go zig zag all over the sky and was brilliantly camouflaged amongst the starry background No reason why many people should have seen it and those that did like the lady next door but one, dismissed it for what I must admit is almost unbelievable. As God is my witness, it is true and you should take note of it because, who knows one day they may come in their hundreds, not in my time perhaps.

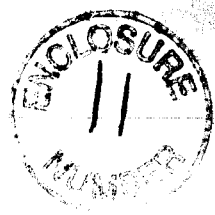

Yours Sincerely

Dear Section 40

Thank you for e-mail dated 19 November, which was passed to this office. We are the focal point within the Ministry of Defence for correspondence relating to 'unidentified flying objects'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'UFOs' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for either the 30 September or the 3 October 2002 from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity on these dates.

Yours sincerely

TREAT OFFICIAL CORRESPONDENCE

To DAS(LA) P+P **TO Ref No** 6130 **/2002**

Date 20th November 2002

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days** of the above date. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

An *Open Government Code of Practice on Access to Government Information* came into force in 1997. All replies to members of the public must be in accordance with the procedures set out in the Code (a full explanation is contained in DCI(Gen) 232/01; further information is available from DG Info on Section 40 [redacted]

Under *Service First*, all Departments and Agencies must ensure that they have simple systems to record and track correspondence received from members of the public (including details of the correspondent and the nature and date of the reply). This information should be regularly monitored and reviewed against published targets. In addition, we are required to keep information on the number of **requests for information, which specifically refer to the Code of Practice.**

As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.

Subject: Aircraft clarification

Section 40 [redacted]

Whipton
Exeter
Section 40 [redacted]

Dear Ministry of defense

I hope you can help me with my enquiry. This regards two sightings of unidentifiable flying craft, I live in Exeter close to Exeter Airport. On Monday September the 30th just after 22:00hrs a craft flew from the west in an easterly direction through the sky over my area, Whipton. I have been in contact with Exeter Airport, Air traffic control and they were not in any contact with any plane at the times stated, which is strange because this craft was not high enough to have been out of their range. This was no plane or helicopter as it displayed no warning system, and had two neon blue lights at the rear, and after some research I have found no aircraft that share this lighting pattern.

The second sighting was from my house again on Thursday October the 3rd from 20:20 to 20:23, this was visible for a short period of time as you can see. This craft approached my area again from the same direction as the other craft and once again flying East. Again Exeter air traffic control were not in contact with any planes or helicopters at the times stated. I could see no warning light systems or furthest point markers like on planes and helicopters. All that was visible was one ball of red glowing light. Which in the time I lost sight of it over my roof top and going to the front window it was no longer visible.

I know this is a strange question but as my local Airport cannot help me identify these craft or even acknowledge them I hope you can give me an answer. Have you had any similar questions or reports? Do you know of anything on your records that could shed some light on the situation? Was it tracked on any other radars?

I very much appreciate your time and effort and if you can answer any of my questions I would be most grateful.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 15 November from Derbyshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

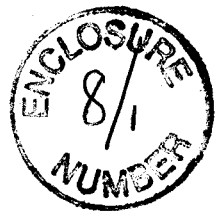

Yours sincerely

UNIDENTIFIED FLYING OBJECTS

A controller receiving a report about an unidentified flying object must obtain as much as possible of the information required to complete a Report in the format shown below.

Report of Unidentified Flying Object

A **Date, Time and Duration of Sighting.** 04-OCT-02 0930-1115 PM.
Local times to be quoted.

B **Description of Object.** 1 white v. small (looked v. high a/c type) very high object
Number of objects, size, shape, colours, brightness, sound, smell etc.

C **Exact Position of Observer.** ~~Very bright~~ Dagenham Heathway by A13. FORD MAIN WORKS. AS HOME ADDRESS.
Geographical location, indoors or outdoors, stationary or moving.

D **How Observed.** Naked eye.
Naked eye, binoculars, other optical device, still or movie camera.

E **Direction in which Object was First Seen.** SOUTHGND DIRN TRAVELLING TOWARDS (LAMBOURNE VOR) APPROX 10 MILES N.E OF L.CITYAPT.
A landmark may be more useful than a badly estimated bearing.

F **Angular Elevation of Object.** VERY HIGH
Estimated heights are unreliable.

G **Distance of Object from Observer.** WAS DIRECTLY OVERHEAD.
By reference to a known landmark wherever possible.

H **Movement of Object.** AS ABOVE - SOUTHGND → LAMBOURNE THEN T 90°.
Changes in E, F and G may be more useful than estimates of course and speed. NOTHING HEARD.

J **Meteorological Conditions During Observations.** CLEAR SKY.
Moving clouds, haze, mist etc.

K **Nearby Objects.** River thames. FORD MAIN WORKS.

Telephone or high-voltage lines; reservoir; lake or dam; swamp or marsh; river; high buildings; tall chimneys; steeples; spires; TV or radio masts; airfields; generating plant; factories; pits or other sites with floodlights or other lighting.

L **To Whom Reported.** A.T.C.
Police; military organisations, the press etc Section 40

M **Name and Address of Informant.** Section 40 Section 40 DAGENHAM, ESSEX.

N **Any Background Information on the Informant that may be volunteered**
RADIO OPERATOR.

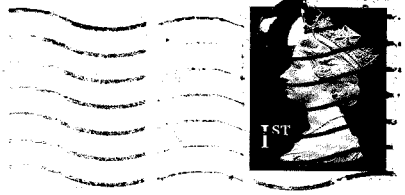

O **Other Witnesses.** ~~No~~ SON. Section 40

P **Date and Time of Receipt of Report.** 7TH OCTOBER 2002 1130AM

The details are to be telephoned immediately to AIS (Military), LTCC
The completed report is to be sent by the originating ATSU to the Ministry of Defence Sec (AS).

25th October 2002

Dear Sirs

The following is an (almost) verbatim report received by myself from Section 40 of Blundellsands, Liverpool. Section 40 rang MRSC Liverpool at 1120 local time today 25th October.

On a number of occasions during the conversation Section 40 insisted he did not wish to be taken for a crank. He also informed me very early in the conversation that he was an experienced sailor and familiar with observing aircraft at night, at sea.

Report
"At about 0130 this morning my wife (who's a light sleeper), alerted me to an 'object' that was hovering above Section 40 *estimate),* West Kirby. It was 70 degrees above the horizon, at about cloud level."

I then asked Section 40 to describe the object, again before he proceeded with his description, he insisted he was a rational "ordinary" man.

"It looked like a sphere at first. Then as I watched it more it appeared more like an upturned saucer, with a dome on top. It had lights Section 40 *in the background insisted the lights were amber),* the dome had a light on top"

I then asked Section 40 to confirm his address and telephone number. He then informed me his wife had videotaped the sighting although the tape was not too clear. He then went on to explain that the reason he contacted ourselves and not Air Traffic Control or the Police was simply because of the close proximity of the Station to his house (a matter of a few yards). He explained that he did not know the regular office telephone number and did not wish to dial 999. Section 40 merely wondered if anybody from the night watch could confirm what he and his wife had witnessed.

Section 40 address is Section 40 North, Blundellsands, Liverpool Section 40

Action
I first contacted ATC at Liverpool Airport. I was told that there were no incidents handed-over at watch-change this morning. They passed a generic number for West Drayton Control, who in-turn gave me a number for the Secretariat answer-machine.

The machine cut-off my message within five seconds hence this letter.

At the end of my conversation with the Section 40 I advised them that I would make report through the 'proper channels'. They were not perturbed by this and at all times seemed more interested in merely passing on their report than profiting from their video 'evidence'.

It was entirely coincidental that I took the call from the Section 40 as I have a secondary role at this MRSC as Station Air Liaison Officer, therefore I feel I was able to question them a little more sympathetically in the first instance.

I will copy this letter to my District Controller and Section 40 and would be very grateful if your department, should it decide whether or not to follow-up this report, will advise us accordingly.

Yours faithfully,

D/DAS/64/2

Date
13 November 2002

Dear Section 40

I am writing with reference to your report of a sighting of an 'unidentified flying object' on 23 October 2002, the details of which were left on the DAS (LA) Ops & Pol 1 answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs'.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity. Unless there is evidence of a potential threat, and to date no 'UFO' report has revealed such evidence, MOD does not attempt to identify the precise nature of each reported sighting. We believe it is possible that rational explanations, such as aircraft lights or natural phenomena, could be found for them, but it is not the function of the MOD to provide this kind of aerial identification service. We could not justify expenditure of public funds on investigations which go beyond our specific defence remit.

With regard to your particular observation, I have looked back through our sighting report files and can confirm that we received no other reports of 'UFO' sightings for 23 October from anywhere in the United Kingdom. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised air activity.

Yours sincerely
Section 40

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1.	**Date and time of sighting.** (Duration of sighting.)	Wednesday 23 October 2002 @ 07:04 For 4:18 minutes
2.	**Description of object.** (No of objects, size, shape, colour, brightness, noise.)	Large silver triangle (the size of two jumbo jets?), oscillated several times changing to an elliptical shape. Clouded in a pink and green haze.
3.	**Exact position of observer. Geographical location.** (Indoors/outdoors, stationary/moving.)	Outdoors
4.	**How object was observed.** (Naked eye, binoculars, other optical device, camera or camcorder.)	
5.	**Direction in which object was first seen.** (A landmark may be more helpful than a roughly estimated bearing.)	Melton in Woodbridge – object followed by two white lights then sped off towards Felixstowe
6.	**Approximate distance.**	15 ° off the horizon
7.	**Movements and speed.** (side to side, up or down, constant, moving fast, slow)	
8.	**Weather conditions during observation.** (cloudy, haze, mist, clear)	

9.	**To whom reported.** (Police, military, press etc)	DAS(LA)Answerphone
10.	**Name, address and telephone no of informant.**	Section 40 [redacted] Woodbridge Suffolk Section 40 [redacted] Tel: Section 40 [redacted]
11.	**Other witnesses.**	
12.	**Remarks.**	
13.	**Date and time of receipt.**	Wednesday 23 October 2002 @ 08:14
