#### REPORT of an UNIDENTIFIED FLYING OBJECT

a. Date/Time and Duration of Sighting (Local times to be quoted)
12-08-96 0600 HRS 2-3 MINS

309

- b. Description of Object (No. of objects, size, shape, colours, brightness, sound, smell etc.)

  OVAL BRIGHT LIGHT CHANGED TO ROUND BALL AND BECAME

  SMALLER
- c. Exact Position Observed. (Geographical location, indoors or outdoors, stationary or moving)
  FROM FLEETWOOD, OVER KNOTT END. STILL FOR 15 SECS
  AND THEN MOVED TO THE RIGHT
- d How Observed ( Naked eye, Binoculars other optical device, still or movie camera )

NAKED EYE

e. Direction in Which Object was First Seen ( A landmark may be more useful than a badly estimated bearing )

KNOTT END

f Angle of Sight (Estimated heights are unreliable)

NOT KNOWN

g Distance (By reference to a known Landmark if possible)

NOT KNOWN

h Movements (Changes in E,F,G may be of more use)

STILL FOR IS SECONDS THEN MOVED TO THE RIGHT

i Meteorological Conditions During Observations. ( Moving clouds Mist etc. )

NOT KNOWN

j Nearby Objects ( Telephone lines Spires Etc. )

NOT KNOWN

#### ame and Address ofInformant

## FREETWOOD POLICE STATION

- m. Any Background on the Informant that may be Volunteered.
- Other Witnesses
- Date and Time of Receipt

2025 - 12-08-96

The above details are to be telephoned immediately to AIS ( Military ), Latce on ext.

The completed form is to be despatched to:

Ministry of Defence (AFO)

#### REPORT OF U.F.O. SIGHTING

At approx 2230hrs on Sunday 260896 on A4189 at Gannaway, Claverdon, Warwickshire, Tel S saw the following:

"Triangular shaped object in sky approx size of a large helicapter, totally silent, brilliant gleaming gold with row of lights all around on one side, gliding gently and appeared to turn over. The -other side had what appeared to be black circles around it. Minateley not an aeroplane."

on 40 contacted her local radio station to enquire as to whether other sightings had been reported. She was subsequently contacted by Section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section 40 section lady described the above object exactly as Section 40 had seen it and at approximately the same time.

Air Traffic Control at Coventry and Mirmingham both state that nothing logged with them and no 'unusual manoevres' took place within their air space on that date.

## UFO SIGHTING FOM

Hull

Log 116.

Sighted at oppose 0215an 26/8/96.

west when he saw the dopect travelling South.

Sighting lasted approx 7-10 secs. Then seen agan at approx abovar 26/8/96 travelling Northwards, again for 7-10 secs.

He desiribed it as brought beige in colour, no lights, sound or smell, sign of a fighter plane. He first doserved it with a natural eye, the with binoculars. He esse estimated it to be 2000/3000 pt whe air, at an argue of 450 from eye level, starting it pour over the foodball pitches southcooks have I Rosmead sit.

The night was close with patchy cland.

Section 40 reported it to the police at 0317 an

26/8/96. There were no other intresses.

to marthy magazines and first spotted one in 1980 which he did not report. This is his second proper sighting.

Shape of UPO drawn by Section 40, believed to be the rear of the doject.

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

| 1. Date, time & duration of sighting                                                                                                                                                                                                                  | 17.892<br>10pm 10-15 seconds                                |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| 2. Description of object (No of objects, size, shape, colour, brightness, noise)                                                                                                                                                                      | Black. No lights. Round at bottom. 3 parts to it. 3014 wide |
| 3. Exact position of observer (Indoors/outdoors, stationary/moving)                                                                                                                                                                                   | OF two A70                                                  |
| 4. How observed (Naked eye,<br>binoculars, other optical<br>device, camera or camcorder)                                                                                                                                                              | hisked eye                                                  |
| 5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)                                                                                                                                              | Alouva the A70.                                             |
| 6. Angle of sight (Estimated heights are unreliable)                                                                                                                                                                                                  | 20 st high.                                                 |
| 7. Distance (By reference to a known landmark)                                                                                                                                                                                                        |                                                             |
| 8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)                                                                                                                                                              |                                                             |
| 9. Met conditions during observat (Moving clouds, haze, mist etc.                                                                                                                                                                                     |                                                             |
| 10. Nearby objects (Telephone line high voltage lines, reservoir, or dam, swamp or marsh, river, buildings, tall chimneys, stee spires, TV or radio masts, airfields, generating plant, factories, pits or other sites floodlights or night lighting) | lake<br>high<br>ples,                                       |

| 11. To whom reported (Police, military,         | Pouce doctor, psychologist,     |
|-------------------------------------------------|---------------------------------|
| press etc)                                      | BBC, local wive sity, vicinity  |
| 12. Name, address and telephone no of informant | Section 40                      |
|                                                 | Eduno P                         |

(pre 1st routing)

SAW A BRIGHT LIGHT ABOVE A MISTY TYPE OF SKY. IT HOVERED AND MOVED AMAY AT INCREDIBLE SPEED: IT WAS LIKE A SEARCHLISHT BUT DID NOT HAVE A BEAM. IT HOVERED AND CAME BACK AGAIN. IT WENT ON FOR ABOUT HALF AN HOUR. SEVERAL PEOPLE SAW IT. NO SOUND WITH THE LIBHT. NO STARS IN THE SKY JUST A HAZE, THE OBJECT MOVED VERY QUICKLY AND IT WENT AT INCREDIBLE SPEED AND THEN CAME BACK ABAIN. THE OBJECT HOVERED ABOVE THE BRITISH MUSEUM FOR ABOUT 2 MINUTES AT A TIME. IT WOULD DISAPPEAR BEHIND THE BUILDINGS AND THEN COME BACK AGAIN.

23:07 22AU894 F

ED ^ CX I AM JUST ABOUT TO RING WEST DRAYTON. I WILL UPDATE THE CAD FOR YOU. THE MAN WAS QUITE SERIOUS ABOUT THIS SO I TOOK HIM AT HIS WORD.

ANNEX A TO SOP 502

## REPORT OF AN UNIDENTIFIED FLYING OBJECT

| 1. Date, Time and Duration of Sighting  2. Description of Object (No of objects, size, shape, colour, brightness)  3. Location (indoor/outdoor stationary/moving)  4. How observed (naked eye, binoculars, other optical device, still or moving)  5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)  6. Angle of Sight (Estimated heights are unreliable)  7. Distance (By reference to a known landmark)  8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)  9. Met conditions during observations (Moving cloud, haze, mist, etc)  10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)  11. To whom reported (Police, military, press, etc) |     |                                                                                                                                                                                                               |                                                            |
