Attention: Mr. Paul Steucke, Public Relations
ANCHORAGE, ALASKA

Dear Mr. Steucke,

The Associated Press issued a news report on 23 Feb. 1987 stating that a copy of the FAA form was available from your office for 30 cents (stamps enclosed) which summarized a reported UFO sighting on 10 November by Capt. Kenjiro Teranishi a pilot of the Japan Air Lines as his Boeing 747 cargo jet was enroute Alaska to Seattle on a flight from Hickam.

From the very brief media accounts of this UFO sighting which I have read, it would appear that this sighting would most certainly merit additional in-depth aeronautical and astronomical analysis and overall evaluation. All may be that I shall request additional information from your office and I would appreciate receiving a specific price list of the various items which you apparently have for sale relating to this UFO sighting.
It would be helpful if you could inform me as to the 
air speed and altitude of both the Boeing 747 and the UFOs 
and a description of any abnormal UFO aerial maneuver 
when the reported UFO sighting occurred.

I am writing this letter to you from Phoenix, Arizona 
where I am doing research until 1 April. In 1982 I visited 
Alaska for 2 weeks in the summer and drove my car all around 
Alaska including Anchorage.

For three decades I have investigated international 
UFO sightings from around the world. Do not discount them. 
Thank you so very much for your anticipated cooperation. 

Best wishes always.

Sincerely,

FAA Launches Far-Out UFO Mail-Order Business

A Japan Air Lines pilot’s recent claim that he saw a UFO has generated so much interest that the Federal Aviation Administration is offering a mail-order package that includes tapes of interviews with the crew members, spaceship drawings by the pilot and air controller statements, and even four glossy color photos of regenerated radar data. All yours for $194.30. If that’s a bit steep, you can order individual items, ranging from a $50 cassette tape of communications between the controllers and flight crew, to a 30-cent copy of an FAA form summarizing the sighting. JAL Capt. Kenju Terauchi reported Nov. 17 that his jet was shadowed by two belts of lights as it crossed into Alaska airspace on a flight from Iceland to Anchorage. He also reported seeing a huge spaceship the size of two aircraft carriers. Philip J. Klass, a magazine editor and longtime UFO investigator, said Terauchi probably saw an unusually bright image of the planet Jupiter and possibly Mars. But Terauchi insists the objects “were not made by human-kind. They were of a very high intelligence.” The FAA address to write to is 701 C. St., Box 14, Anchorage, Alaska 99513.

2/27/87

FAA: Does the $194.30 include shipping costs? What form of payment is accepted?
