Gentlemen:

Soon after the Japanese airplane had an experience with a UFO I ordered over $5.00 worth of material which you prepared about the incident. I have loaned it out piece by piece until I have none left.

If you could send me another two or three pieces of your most convincing literature I would appreciate it.

If there is a charge for this please let me know and I will remit immediately.

Sincerely,
John Armstrong

Dear Sir:

I heard on a news broadcast that information on a UFO sighting could be obtained from your office. The one I'm interested in is the sighting made by a Japanese pilot about a couple months ago. I believe the aircraft was on a flight from Iceland across Canada and observed a UFO for about two hours.

Any information you have would be appreciated. If a fee is charged please bill me.

To Whom It May Concern:

On 2/25/87 I noticed an article in the

daily paper (Newstary) called "The Complete
UFO Kit." In the Associated Press article
(from Anchorage, Alaska) JAL Capt. Kenji
Terakuchi's report that on November 17, 1986
his Boeing 747 cargo jet was shadowed by
two bells of light as it crossed into Alaska
airspace on a flight from Seattle to Anchorage.

I understand that you (the FAA) has a
mail-order offer to the public since there has
been such enormous public interest in the
November sighting.

I have read that your agency (the FAA)
is offering 20 individual items ranging from
a 90-minute cassette tape of communications between
the controllers and the flight crew, to a 30-cent
copy of a FAA form summarizing the sighting.
I understand that orders of less than $150
are free.

I would like to order at this time
the 30-cent copy of an FAA form summarizing
the sighting plus all other material which
would come to a total of less than $5.00
(which would be free). If you could send
an order sheet, it would be most appreciated
in the event that I would be interested in placing
an order above the $5.00 figure.
Please forward as soon as possible.
Thank you for your consideration.
